Military Waste Joshua O. Reno,2020-02-04 World War III has yet to happen and yet material evidence of this conflict is strewn everywhere resting at the bottom of the ocean rusting in deserts and floating in near Earth orbit In Military Waste Joshua O Reno offers a unique analysis of the costs of American war preparation through an examination of the lives and stories of American civilians confronted with what is left over and cast aside when a society is permanently ready for war Using ethnographic and archival research Reno demonstrates how obsolete military junk in its various incarnations affects people and places far from the battlegrounds that are ordinarily associated with warfare Using a broad swath of examples from

excess planes ships and space debris that fall into civilian hands to the dispossessed and polluted island territories once occupied by military bases to the militarized masculinities of mass shooters Military Waste reveals the unexpected and open ended relationships that non combatants on the home front form with a nation permanently ready for war **India's National Security** Satish Kumar, 2017-11-22 The global security environment in the last five years has been characterised by a state of no war no peace among major powers resulting in a state of uncertainty about their national security objectives For instance the US has been concerned about the attitudes of Iran Russia North Korea China and others and yet did not expect a direct military conflict with them On the other hand China has expanded its naval strategy from a mere off shore defence to open seas protection and has called for both defence and offence instead of merely territorial air defence thereby indicating preparedness for the possibility of a military confrontation The major powers have been thus groping for suitable responses to their threat perceptions It is in this kind of a complex and confusing international environment that India as a rising power has been called upon to wade through its strategic partnerships with major powers and nurture friendships with various Asian and African countries This sixteenth volume of India's National Security Annual Review offers indispensable information and evaluation on matters pertaining to national security It undertakes a thorough analysis of the trends to provide a backdrop to India's engagement with various countries The volume also discusses persisting threats from China and Pakistan With contributions from experts from the fields of diplomacy academia and civil and military services the book will be one of the most dependable sources of analyses for scholars of international relations foreign policy defence and strategic studies and political science and practitioners alike
