practice Provide assurance over internal audit efficiency and effectiveness Deliver value by meeting stakeholder expectations  
As a key component of good governance internal audit is on the rise The days of retrospective compliance focused auditing is  
a thing of the past Organizations expect more of internal audit and many internal audit activities are accepting the challenge  
Rather than relying on audit supervision and external assessments modern auditors are embedding quality into audit  
activities to create effective programs For the auditor looking to distinguish themselves as leading edge Internal Audit  
Quality provides the guidance that enables the right work at the right time in the right way Cpa Review Business Law
