Golden Guide For Class 7 Social Science:

The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state's borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this particular borderland where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state

Resources in Education ,1998-05 *The Middle-Class City* John Henry Hepp, IV, 2018-06-29 The classic historical interpretation of the late nineteenth and early twentieth centuries in America sees this period as a political search for order by the middle class culminating in Progressive Era reforms In *The Middle Class City* John Hepp examines transformations in everyday middle class life in Philadelphia between 1876 and 1926 to discover the cultural roots of this search for order By looking at complex relationships among members of that city's middle class and three largely bourgeois commercial institutions newspapers department stores and railroads Hepp finds that the men and women of the middle class consistently reordered their world along rational lines According to Hepp this period was rife with evidence of creative reorganization that served to mold middle class life The department store was more than just an expanded dry goods emporium it was a middle class haven of order in the heart of a frenetic city an entirely new way of organizing merchandise for sale Redesigned newspapers brought well ordered news and entertainment to middle class homes and also carried retail advertisements to entice consumers downtown via train and streetcar The complex interiors of urban railroad stations reflected a rationalization of space and rail schedules embodied the modernized specialization of standard time In his fascinating investigation of similar patterns of behavior among commercial institutions Hepp exposes an important intersection between the histories of the city and the middle class In his careful reconstruction of this now vanished culture Hepp examines a wide variety of sources including diaries and memoirs left by middle class women and men of the region Following Philadelphians as they rode trains and trolleys read newspapers and shopped at department stores he uses their accounts as individualized guidebooks to middle class life in the metropolis And through a creative use of photographs floor plans maps and material culture *The Middle Class City* helps to reconstruct the physical settings of these enterprises and recreate everyday middle class life shedding new light on an underanalyzed historical group and the cultural
