Child Poverty Morag C. Treanor,2020-02-26 Child poverty is rising across affluent Western societies how it is measured is vital to how governments act to prevent alleviate or eliminate it While the roots of childhood poverty are fiercely debated and contested they are all too often misrepresented in policy and media discourses Seeking to redress this problem Treanor places children s experiences needs and concerns at the centre of this critical examination of the contemporary policies and political discourses surrounding poverty in childhood She examines a broad range of structural institutional and ideological factors common across developed nations and their impacts to interrogate how poverty in childhood is conceptualised and operationalised in policy and to forge a radical pathway for an alternative future

Home Rule Nandita Sharma,2020-02-14 In Home Rule Nandita Sharma traces the historical formation and political separation of Natives and Migrants from the nineteenth century to the present to theorize the portrayal of Migrants as colonial invaders The imperial state category of Native initially a mark of colonized status has been revitalized in what Sharma terms the Postcolonial New World Order of nation states Under postcolonial rule claims to autochthony being the Native people of a place are mobilized to define true national belonging Consequently Migrants the quintessential people out of place increasingly face exclusion expulsion or even extermination This turn to autochthony has led to a hardening of nationalism s Criteria for political membership have shrunk immigration controls have intensified all while practices of expropriation and exploitation have expanded Such politics exemplify the postcolonial politics of national sovereignty a politics that Sharma sees as containing our dreams of decolonization Home Rule rejects nationalisms and calls for the dissolution of the ruling categories of Native and Migrant so we can build a common worldly place where our fundamental liberty to stay and move is realized

How to Kill a City PE Moskowitz,2017-03-07 An exacting look at gentrification New York Times Book Review and the lives devastated in the process The term gentrification has become a buzzword to describe the changes in urban neighborhoods across the country but we don t realize just how threatening it is It means more than the arrival of trendy shops much maligned hipsters and expensive lattes The very future of American cities as vibrant equitable spaces hangs in the balance P E Moskowitz s How to Kill a City takes readers from the kitchen tables of hurting families who can no longer afford their homes to the corporate boardrooms and political backrooms where destructive housing policies are devised Along the way Moskowitz uncovers the massive systemic forces behind gentrification in New Orleans Detroit San Francisco and New York In the new preface Moskowitz stresses just how little has changed in those same cities and how the problems of gentrification are proliferating throughout America The deceptively simple

question of who can and cannot afford to pay the rent goes to the heart of America's crises of race and inequality. A vigorous hard hitting exposé. *How to Kill a City* reveals who holds power in our cities and how we can get it back.

Class Dynamics of Development Jonathan Pattenden, Liam Campling, Satoshi Miyamura, Benjamin Selwyn, 2018-12-07 This book argues that class relations are constitutive of development processes and central to understanding inequality within and between countries. It does so via a transdisciplinary approach that draws on case studies from Asia, Latin America and sub-Saharan Africa. Contributors illustrate and explain the diversity of forms of class relations and the ways in which they interplay with other social relations of dominance and subordination such as gender and ethnicity as part of a wider project to revitalise class analysis in the study of development problems and experiences. Class is conceived as arising out of exploitative social relations of production but is formulated through and expressed by multiple determinations. By illuminating the diversity of social formations this book illustrates the depth and complexity present in Marx's method. This book was originally published as a special issue of *Third World Quarterly*.

International Trends in Educational Assessment, 2018-12-10 Assessment and evaluation have always been an integral part of the educational process. Quality and purposeful assessment can assist in students learning and their achievement. In recent years considerable attention has been given to the roles of educational measurement, evaluation and assessment with a view to improving the education systems throughout the world. Educators are interested in how to adequately prepare the young generation to meet the ever growing demands of the 21st century utilizing robust assessment methods. There has also been increased demand in accountability and outcomes assessment in schools to bridge the gap between classroom practices and measurement and assessment of learners performance. This volume contains selected and invited papers from the First International Conference on Educational Measurement, Evaluation and Assessment (ICEMEA). Contributors are Peter Adams, Derin Atay, Nafisa Awwal, Helen Barefoot, Patrick Griffin, Bahar Hasirci, Didem Karakuzular, Don Klinger, Leigh Powell, Vicente Reyes, Mark Russell, Charlene Tan, Bryan Taylor and Zhang Quan.

Global Resurgence of the Right Gisela Pereyra Doval, Gastón Souroujon, 2021-07-27 This book provides a broad ranging analysis of the global resurgence of right wing forces in the twenty first century. These parties, organisations and social movements represent a break from right wing forces in interwar political history in Europe and the United States and the right wing dictatorships in Latin America. The book reflects on the most appropriate conceptual categories to account for this phenomenon and whether terms such as populism, fascism, authoritarianism or conservatism can explain the new manifestations of the right. The book also explores this through a range of national case studies written by country specialists focusing on Austria, Italy, Spain, Argentina, Brazil, Ecuador and the United States of America. Providing a much needed global perspective, this book will be of considerable interest to students and scholars of populism, fascism, right wing extremism and conservatism.
