ahead imagine it What would it look like How can it be done The answer smart cost management Effective cost management
must start at the design stage As much as 90 95% of a product s costs are added in the design process That is why effective
cost management programs focus on design and manufacturing The primary cost management method to control cost during
design is a combination of target costing and value engineering Target Costing Objectives Identify the cost at which your
product must be manufactured at if it is to earn its profit margin at its expected target selling price Break the target cost
down to its component level and have your suppliers find ways to deliver the components they sell you at the set target prices
while still making adequate returns Value Engineering The connection to function An organized effort and team based
approach to analyze the functions of goods and services that the design stage and find ways to achieve those functions in a
