

Elster American Meter Installation

This chapter provides the instructions to install the 100G DLS gas ERT module on an Elster American Meter.

Note Properly dispose all unused screws, old index covers, gaskets, tamper seals, and other leftover materials. Do not leave materials on customer premises.

Removing the Meter Index

Begin the ERT module installation by removing the index cover and index from the meter.

To remove the index from the meter

1. Remove the four index cover screws and the index cover from the Elster American meter. Alternate screw removal following the numbered pattern in the photo.

2. Examine the mounting screws. If they are 5/8-inch long and not corroded, keep them to re-attach the 100G DLS assembly. If the screws are not the correct length or if the screws are corroded, discard.

Note You may use the removed index cover as a temporary storage container for screws. Properly dispose all unused screws, old index covers, gaskets, tamper seals, and other leftover materials. Do not leave materials on customer premises.
