Sick Schools David V. Anderson, 2020-01-10 Who's afraid of for profit education Those who work in non profit or government owned and operated schools Many parents and other stakeholders have been made fearful by this education establishment What's more important to humans nutrition or education Nutrition is more important because it is the prerequisite for other human activities including education What organizations provide food and who pays for the food Food is provided by for profit farmers for profit processors for profit wholesalers and for profit retailers Most food is purchased with the consumers own money but a significant amount is purchased by low income individuals using food stamps Why can't education be provided similarly using education stamps We trust for profit enterprises to provide our food Why can't we trust for profit enterprises to provide K 12 education Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for profit K 12 education sector would please and amaze its customers

Rise and Fall of the UK Film Council Gillian Doyle, 2015-08-18 Drawing on interviews with leading film executives politicians and industry stakeholders including Alan Parker Stewart Till and Tim Bevan this book provides an empirically grounded analysis of the rise and unexpected fall of the UK Film Council the key strategic body responsible for supporting film in the UK for over a decade As well as offering a critical overview of the political policy and technological contexts which framed the organisation's creation existence and eventual demise the book provides a probing

analysis of the tensions between national and global interests in an increasingly transnational film industry not least underlining how both US and EU interests and pressures have played themselves out It therefore provides a timely and significant investigation into the contemporary policy environment for film in the 21st century

Banking on Data Scott Farrell, 2023-03-09 International Banking and Finance Law Series Volume 37 Despite open banking's broad emergence in a variety of jurisdictions and the ambition shared for the benefits it is to deliver there is a distinct lack of detailed analysis of the legal features which are needed for it to be effectively established This indispensable study is the first to analyse open banking's legal foundations by reference to banking law rather than to privacy law or competition law With a detailed focus on the mature open banking systems of Australia and the United Kingdom including Australia's Consumer Data Right the book's thoroughgoing legal perspective provides a comprehensive framework which can be used to evaluate and design open banking in any jurisdiction The presentation proceeds through a comparison of the legal rights responsibilities and relationships under open banking systems with equivalent rights in traditional banking payment systems This process clearly reveals and addresses such salient open banking and data sharing issues as the following what data should be shareable and who should be required to share data how data should be shared and how rights to share data should be established the role of data minimisation and the role of consent how laws standards rules and technology interact in an open banking system how open banking fosters competition innovation and financial inclusion how consumer protection can be included by design management of quality and security of shared data facilitation and regulation of participation legal relationships and allocation of liability among participants compensation for customers if something goes wrong strategic challenges and opportunities enforceability and insolvency systemic efficacy and safety and the role of trust Also included is an assessment framework designed to categorise the risks which arise in open banking and other data sharing systems As a systematic appraisal of how banking law can be used to ensure the customer autonomy data portability recipient accountability and participant connectivity promised by open banking systems the book's legal perspective on the value of customer data will prove of inestimable value for lawyers in banking and finance as well as for professionals in financial services or information technology
