

PowerPoint 2010 Practice Exercises: Self-Paced Training

EXERCISE 1: FORMAT TEXT AND ADD SLIDES

Here's your chance to be hands-on with PowerPoint 2010.

1. Make sure the **Home** tab is displayed.
2. Now, change the color of the words "Getting oriented" on slide 1. Select the text, and in the **Font** group, click the arrow next to **Font Color** . In the color choices that appear, under **Theme Colors**, select a new color for the text.
3. With "Getting oriented" still selected, look in the **Font** group for **Character Spacing** . Click its arrow and point to **Tight** and **Loose** to see a preview of each; select any item on the menu.
4. Make sure "Getting Oriented" is still selected. Another way to open the **Font** dialog box options is to click the dialog box launcher , the small arrow in the lower-right corner of the **Font** group. Click it now. The dialog box opens with the **Font** tab displayed. You might prefer to work in this dialog box for some font options.

Tip When you're searching for options you remember from an earlier PowerPoint version, look for a dialog-box-launcher arrow in the group.

5. Another aid in formatting is the **Mini toolbar**. Select the text "Jump in to 2010," and leave the mouse positioned on the selection.

The **Mini toolbar** appears faded to the top right of the words you have selected. Hover the mouse pointer over the **Mini toolbar** to make it solid, then click the **Italic** button to format this text. Simply move your mouse away from the **Mini toolbar** to make it disappear.

6. Now, reselect "Getting oriented," and look at the **Paragraph** group on the ribbon. You'll see that **Center** is selected for the text's position.

Click **Align Text Left**  and **Align Text Right**  to see how those selections affect the position of the text.

7. Keep the **Home** tab displayed on the ribbon, and now, add a new slide to the presentation. First, click under the last slide in the presentation in the **slides list** on the left side of the screen. In the **Slides** group on the **Home**

tab, click the arrow next to **New Slide**

Microsoft Powerpoint 2010 Practice Exercises For Beginners

Meera Aggarwal, Dorothy Fanthome

Microsoft Powerpoint 2010 Practice Exercises For Beginners:

Microsoft® PowerPoint® 2010 Step by Step Joan Lambert, Joyce Cox, 2010-06-29 Experience learning made easy and quickly teach yourself how to create dynamic presentations with PowerPoint 2010 With STEP BY STEP you set the pace building and practicing the skills you need just when you need them Topics include creating great looking slides using templates or your own designs creating sophisticated charts and diagrams using animation sound and other special effects creating presentations simultaneously with others over the Web delivering presentations and other core topics **Exam 77-883 Microsoft PowerPoint 2010, with Microsoft Office 2010 Evaluation Software** Microsoft Official Academic Course, 2011-10-11 The Microsoft Official Academic Courseware MOAC Office 2010 Series is the only Official Academic Course program Microsoft Office PowerPoint 2010 is built from the ground up around the MOS certification objectives making it a great way to learn all the workforce oriented tasks required for certification The Test Bank now offers greater flexibility and provides more than 75 questions and 3 projects per lesson as well as automated grading via OfficeGrader Furthermore the latest edition's use of color in screen captures allows users to follow on screen much easier as screen captures will look the exact same as the application Additional projects throughout the book help users comprehend how a task is applied on the job OfficeGrader also helps instructors offer immediate feedback on all homework assignments and projects and additional animated tutorials on key Office tasks provides additional help on difficult topics Microsoft Office Professional 2010 Step by Step Joan Lambert, Joyce Cox, Curtis Frye, 2010-08-25 Teach yourself exactly what you need to know about using Office Professional 2010 one step at a time With STEP BY STEP you build and practice new skills hands on at your own pace Covering Microsoft Word PowerPoint Outlook Excel Access Publisher and OneNote this book will help you learn the core features and capabilities needed to Create attractive documents publications and spreadsheets Manage your e mail calendar meetings and communications Put your business data to work Develop and deliver great presentations Organize your ideas and notes in one place Connect share and accomplish more when working together *Microsoft Office Home and Student 2010 Step by Step* Joan Lambert, Joyce Cox, Curtis Frye, 2010-06-30 Teach yourself exactly what you need to know about using Microsoft Word Excel PowerPoint and OneNote one step at a time With STEP BY STEP you build and practice new skills hands on at your own pace Topics include creating effective documents using themes templates and other formatting tools building spreadsheets to perform calculations and manage data producing and delivering compelling presentations digitally organizing your notes and to do lists and other core topics **Log On To Computers** ■ 8 Meera Aggarwal, Dorothy Fanthome, LOG ON TO COMPUTERS series consists of ten thoroughly revised and updated textbooks for classes 1 10 The books aim to help students master the use of various types of software and IT tools The books have been designed to keep pace with the latest technologies and the interests of the 21st century learners The series is based on Windows 7 and MS Office 2010 and adopts an interactive approach to teach various concepts related to Computer Science

The books for classes 1 5 focus on the basics of computers Windows MS Office OpenSource software and programming language LOGO However the books for classes 6 8 encourage students to experience and explore more about programming languages like QBasic HTML and Visual Basic application software such as Photoshop Flash and MS Office The ebook version does not contain CD
