New Directions in Public Opinion Adam J. Berinsky, 2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study
