

Section 4: Quality Management Systems

4.1 General Requirements.

Suburban Manufacturing, Inc. has established, documented and implemented a Quality Management system in accordance with the requirements of ISO 9001:2008. The system is maintained and continually improved through the use of quality objectives, internal and external audit results, analysis of data, corrective and preventative action, and management review. To design and implement the quality system, Suburban Manufacturing, Inc. has:

- 4.1.1 Identified the processes needed for the QMS and their applications throughout the organization. These are documented on the Process Interaction diagram at the end of this section.
- 4.1.2 Identified the sequence and interaction of these processes, and illustrated them on the Process Interaction diagram.
- 4.1.3 Determined criteria and methods needed to ensure the operation and control of the processes are effective. These are documented through the manufacturing software structure and data analysis.
- 4.1.4 Secured the continuing availability of resources and information necessary to achieve planned results and for the continual improvement of these processes.
- 4.1.5 Established systems to monitor measure and analyze the processes.
- 4.1.6 Established processes to identify and implement actions necessary to achieve planned results and continual improvement of these processes.

4.2 Documentation Requirements.

- 4.2.1 Suburban Manufacturing, Inc.'s documentation includes:
 - 4.2.1.1 Suburban's Quality policy and quality objectives.
 - 4.2.1.2 The Quality manual, providing a general overview of the QMS, is in place at Suburban. Policies and procedures are referenced in this manual. There is no paper copy showing all documents and their revision status. All critical documentation is kept on the computer server network.
 - 4.2.1.3 Operational, Departmental Procedures and records. Departmental activities and records that affect other departments or procedures common to the organization.

Quality Procedures for Hardware and Software D.J. Smith, J.S. Edge, 2012-12-06 How to Use This Book The primary purpose of this book is to assist small companies involved in both hardware and software to devise and evolve their own quality systems There are a number of national and now international standards which outline the activities for which procedures and records need to be specified They are described and compared in Chapter 2 and the subsequent guidance in the book is intended to assist in meeting them Although at first sight the operations of a hardware equipment developer may seem very different from those of a software house the basic requirements of a quality system such as the BS 5750 and ISO 1987 series of documents are the same For this reason the same standard can be called for in both areas and it will be seen in Part 2 that suitable procedures can be derived to meet

both types of operation Quality standards BS 5750 AQAP ISO 9000 series distinguish between companies carrying out on the one hand both design and manufacturing fixed functions and on the other hand those who only manufacture to specifications In practice the lesser requirements those applying to manufacture to fixed specifications are common to both levels of standard and the additional controls pertaining to design are added to obtain the higher standard Chapter 2 explains the differences in detail
