The Road to Unfreedom Timothy Snyder, 2019-04-09 NEW YORK TIMES BESTSELLER From the author of On Tyranny comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard The New Yorker With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by

Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty

The Problem of Social Inequality Scott G. McNall, 2015-12-07 Within and among nations rising levels of social inequality threaten our collective future Currently upwards of 80% of people's life chances are determined by factors over which they have absolutely no control Social inequality threatens the democratic project because it destroys the trust on which governments depend and it gives rise to corrupt political and economic institutions How can we get out of the traps we have created for ourselves We need to reboot capitalism Drawing on diverse examples from a range of countries McNall explains the social economic and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies and a set of rules essential for creating a sustainable future

The Human City Joel Kotkin, 2016-04-12 The author of *The Coming of Neo Feudalism* and *The New Class Conflict* challenges conventions of urban planning Around the globe most new urban development has adhered to similar tenets tall structures small units and high density In *The Human City* Joel Kotkin called America's uber geographer by David Brooks of the New York Times questions these nearly ubiquitous practices suggesting that they do not consider the needs and desires of the vast majority of people Built environments Kotkin argues must reflect the preferences of most people even if that means lower density development *The Human City* ponders the purpose of the city and investigates the factors that drive most urban development today Armed with his own astute research a deep seated knowledge of urban history and a sound grasp of economic political and social trends Kotkin pokes holes in what he calls the retro urbanist ideology and offers a refreshing case for dispersion centered on human values This book is not anti urban but it does advocate a greater range of options for people to live the way they want at all stages of their lives Praise for *The Human City* Kotkin presents the most cogent evidence based and clear headed exposition of the pro suburban argument In pithy readable sections each addressing a single issue he debunks one attack on the suburbs after another But he does more than that He weaves an impressive array of original observations about cities into his arguments enriching our understanding of what cities are about and what they can and must become Shlomo Angel Wall Street Journal The most eloquent expression of urbanism since Jane Jacobs's *The Death and Life of Great American Cities* Kotkin writes with a strong sense of place he recognizes that the geography and traditions of a city create the contours of its urbanity Ronnie Wachter Chicago Tribune

Value Chains in Sub-Saharan Africa Sören Scholvin, Anthony Black, Javier Revilla Diez, Ivan Turok, 2019-05-09

Development largely depends on how given places participate in global economic processes The contributions to this book address various features of the integration of sub Saharan Africa into the world economy via value chains so as to explain corresponding challenges and opportunities The book deals with five issues that have not been covered adequately in scientific debates first policies are essential to promote value chains and increase their impact on development second value chains are diverse and the variance between them has major economic and political implications third regional value chains appear to constitute a viable alternative to global ones or at least are complementary to them promising better

developmental outcomes for the Global South fourth political and socio economic factors are important considerations for a complete assessment of value chains fifth cities and city regions are also crucial objects of study in seeking to achieve a comprehensive assessment of value chains *Routledge Handbook of the Environment in Southeast Asia* Philip Hirsch, 2016-09-13 The environment is one of the defining issues of our times and it is closely linked to questions and dilemmas surrounding economic development Southeast Asia is one of the world's most economically and demographically dynamic regions and it is also one in which a host of environmental issues raise themselves The Routledge Handbook of the Environment in Southeast Asia is a collection of 30 chapters dealing with the most significant scholarly debates in this rapidly growing field of study Structured in four main parts it gives a comprehensive regional overview of and insight into the environment in Southeast Asia Wide ranging and balanced this handbook promotes scholarly understanding of how environmental issues are dealt with from diverse theoretical perspectives It offers a detailed empirical understanding of the myriad environmental problems and challenges faced in Southeast Asia This is the first publication of its kind in this field a helpful companion for a global audience and for scholars of Southeast Asian studies from a variety of disciplines **Atlas of Knowledge** Katy Borner, 2015-03-20 The power of mapping principles for visualizing knowledge illustrated by many stunning large scale full color maps Maps of physical spaces locate us in the world and help us navigate unfamiliar routes Maps of topical spaces help us visualize the extent and structure of our collective knowledge they reveal bursts of activity pathways of ideas and borders that beg to be crossed This book from the author of Atlas of Science describes the power of topical maps providing readers with principles for visualizing knowledge and offering as examples forty large scale and more than 100 small scale full color maps Today data literacy is becoming as important as language literacy Well designed visualizations can rescue us from a sea of data helping us to make sense of information connect ideas and make better decisions in real time In Atlas of Knowledge leading visualization expert Katy Borner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis Drawing on fifteen years of teaching and tool development she introduces a theoretical framework meant to guide readers through user and task analysis data preparation analysis and visualization visualization deployment and the interpretation of science maps To exemplify the framework the Atlas features striking and enlightening new maps from the popular Places Spaces Mapping Science exhibit that range from Key Events in the Development of the Video Tape Recorder to Mobile Landscapes Location Data from Cell Phones for Urban Analysis to Literary Empires Mapping Temporal and Spatial Settings of Victorian Poetry to Seeing Standards A Visualization of the Metadata Universe She also discusses the possible effect of science maps on the practice of science Handbook of the International Political Economy of Migration Leila Simona Talani, Simon McMahon, 2015-08-28 This Handbook discusses theoretical approaches to migration studies in general as well as confronting various issues in international migration from a distinctive and unique international political economy perspective With a focus on the relation bet **Inquiry-Based**

Learning for Multidisciplinary Programs Patrick Blessinger, John M. Carfora, 2015-05-20 This volume covers the many issues and concepts of how IBL can be applied to multidisciplinary programs and serves as a conceptual and practical resource and guide for educators and offers practical examples of IBL in action and diverse strategies on how to implement IBL in different contexts

Reinventing Detroit Michael Peter Smith, 2017-09-29 This book addresses the questions of what went wrong with Detroit and what can be done to reinvent the Motor City Various answers to the former deindustrialization white flight and a disappearing tax base are now well understood Less discussed are potential paths forward stemming from alternative explanations of Detroit's long term decline and reconsideration of the challenges the city currently faces Urban crisis socioeconomic fiscal and political has seemingly narrowed the range of possible interventions Growth oriented redevelopment strategies have not reversed Detroit's decline but in the wake of crisis officials have increasingly funnelled limited public resources into the city's commercial core via an implicit policy of urban triage The crisis has also led to the emergency management of the city by extra democratic entities As a disruptive historical event Detroit's crisis is a moment teeming with political possibilities The critical rethinking of Detroit's past present and future is essential reading for both urban studies scholars and the general public
