Winnicott Laura Dethiville, 2018-04-24 Winnicott was continually innovating inventing and proposing unexpected solutions in his analytical work whenever he noticed that clinical experience didn't stick to the theory This approach can make his work seem rather diffuse with concepts that are sometimes confusing and needing to be clarified Laura Dethiville has taken on the task of re-evaluating and explaining the principal rudiments of his theories such as the transitional object the self the false self the importance of environment and dissociation She also reveals how Winnicott showed himself to be a forerunner in the care of symptomatic illness in our society including his innovative treatment of loss of identity anorexia or bulimia delinquency psychosomatic illness and school disorders In this book the author has succeeded in avoiding psychoanalytic jargon and although initially aimed at psychoanalysts it is also accessible for educators child carers paediatricians and to all those interested in early childhood the constitution of the psyche and the constitution of the interpersonal link

Horrible Mothers Loïc Bourdeau, 2019-12-01 For too long the main narratives of motherhood have been oppressive and exclusionary frequently ignoring issues of female identity especially regarding those not conforming to traditional female stereotypes. Horrible Mothers offers a variety of perspectives for analyzing representations of the mother in francophone literature and film at the turn of the twenty first century in North America including Quebec Ontario New England and California. Contributors reexamine the horrible mother paradigm within a broad range of sociocultural contexts from different locations to broaden the understanding of mothering beyond traditional ideology. The selections draw from long established scholarship in women's studies as well as from new developments in queer studies to make sense of and articulate strategies of representation to show how contemporary family models are constantly evolving reshaping and moving away from heteronormative expectations and to reposition mothers as subjects occupying the center of their own narrative rather than as objects. The contributors engage narratives of mothering from myriad perspectives referencing the works of writers or filmmakers such as Marguerite Andersen Nelly Arcan Gr goire Chabot Xavier Dolan Nancy Huston and Lucie Joubert.

Sweden But also English speech communities and questions of English grammatical gender are dealt with In accordance with recent sociolinguistic research the contributors refrain from generalizing theses about how men and women normally speak no conversational style feature adheres so firmly to one sex as was thought in early feminism The studies however show that even today the feminine gender is often staged in a way that leads to situative asymmetry to the advantage of men The broader societal context of patriarchy does not determine all communicative encounters but demands particular efforts from women and men to be subverted

The Claims of Parenting Stefan Ramaekers, Judith Suissa, 2011-09-15 Many sociological historical and cultural stories can be and have already been told about why it is that parents in post industrial western societies face an often overwhelming array of advice on how to bring up their children At the same time there have been several philosophical treatments of the legal moral and political issues surrounding issues of procreation the rights of children and the duties of parents as well as some philosophical accounts of the shifts in our underlying conceptualization of childhood and adult child relationships While this book partly builds on the insights of this literature it is significantly different in that it offers a philosophically informed discussion of the actual practical experience of being a parent with its deliberations judgements and dilemmas In probing the ethical and conceptual questions suggested by the parent child relationship this unique volume demonstrates the irreducible philosophical richness of this relationship and thus provides an important counter balance to the overly empirical and largely psychological focus of a great deal of parenting literature Unlike other analytic work on the parent child relationship and the educational role of parents this work draws on first person accounts of the day to day experience of being a parent in order to explore the ethical and epistemological aspects of this experience In so doing it exposes the limitations of some of the languages within which contemporary parenting is conceptualized and discussed and opens up a space for thinking about childrearing and the parent child relationship beyond and other than in terms of the languages which dominate the ways in which we generally think about it today

The Political Clinic Carolyn Laubender, 2024-07-02 Winner 2025 Book Prize of the American Psychoanalytic Association For decades psychoanalysis has provided essential concepts and methodologies for critical theory and the humanities and social sciences But it is also inseparably a clinical practice and technique for treatment In what ways is clinical practice significant for critical thought What conceptual resources does the clinic hold for us today Carolyn Laubender examines cases from Britain and its former colonies to show that clinical psychoanalytic practice constitutes a productive site for novel political thought theorization and action She delves into the clinical work of some of the British Psychoanalytic Society's most influential practitioners including Anna Freud Melanie Klein Wulf Sachs D W Winnicott Thomas Main and John Bowlby exploring how they developed distinctive and politically salient practices Laubender argues that these figures transformed the clinic into a laboratory for reimagining race gender sexuality childhood nation and democracy By taking up the clinic as both a site of inquiry and realm of theoretical innovation she traces how political concepts such as authority repression colonialism decolonization communalism and security at once informed and were reformed by each analyst's work While psychoanalytic scholarship has typically focused on its intellectual social and political effects outside of the clinic this interdisciplinary book combines history with feminist and decolonial social theory to recast the clinic as a necessarily politicized space Challenging common assumptions that psychoanalytic practice is or should be neutral apolitical and objective The Political Clinic also considers what progressive clinical praxis can offer today

Shakespeare and the First Hamlet Terri Bourus, 2022-06-10 The first edition of Hamlet often called Q1 shorthand for first quarto was published in 1603 in what we might regard as the early modern equivalent of a cheap paperback Yet this early version of Shakespeare's classic tragedy is becoming increasingly canonical not because there is universal agreement about what it is or what it means but because more and more Shakespearians agree that it is worth arguing about The essays in this collected volume explore the ways in which we might approach Q1's Hamlet from performance to book history from Shakespeare's relationships with his contemporaries to the shape of his whole career
