Networks Governance, Partnership Management and Coalitions Federation Christophe Assens, Aline Courie Lemeur, 2016-05-12 This book explores the governance of networks A network's governance mechanisms are based on trust and confidence which go beyond a simple economic logic As the network's boundaries expand to include clusters of businesses and stakeholders and the emergence of coalitions of all kinds the trust will gradually dilute and the network's unifying role will be lost The organization then evolves into the form of a network of networks where the challenge is to bring together coalitions Using examples from the European Union and the Regional Health Federation of Networks this book explores the political and socio-economic challenges including the decision making and division of tasks faced by network organizations which move to a federation model of governance

Privatisations en Afrique occidentale Hachimi Sanni Yaya,2017-02-09T00:00:00-05:00

Le déclin de l'Etat providence qui a confirmé l'échec de la planification centralisée et la crise des finances publiques ainsi que l'imposant déficit budgétaire accumulé par les Etats ont conduit les gouvernements de plusieurs pays en développement à limiter les prérogatives de l'Etat : quelques fonctions régaliennes (armée, police, diplomatie et justice) et miser sur la dérégulation générale de l'économie et les gains généraux par l'ouverture à la concurrence des marchés publics. Si les dernières décennies ont vu la place et le rôle de l'Etat passer de celui de producteur-régulateur à celui de catalyseur-partenaire, elles ont également consacré particulièrement en Afrique occidentale l'émergence d'arguments économiques de tendance libérale qui voient dans la privatisation une occasion unique de réduire non seulement le lourd fardeau financier et administratif qu'impose un secteur public déficient mais aussi et surtout une façon de discipliner les entreprises, de stimuler le développement de l'initiative privée et de contribuer à la lutte contre la pauvreté et de recentrer les efforts de l'Etat dans les domaines économiques où sa présence est nécessaire. D'ailleurs, selon plusieurs auteurs, les vieilles approches classiques keynsiennes fondées sur l'interventionnisme étatique ne peuvent plus être soutenues, ne serait-ce qu'en raison des difficultés que connaissent les entreprises publiques en Afrique occidentale. Mais près de deux décennies après l'intensification des pressions exercées par le Fonds monétaire international, la Banque mondiale et autres bailleurs de fonds en vue de libéraliser l'économie des pays sous-développés et la suite de l'abandon des sacro-saints principes d'intervention tutélaire de l'Etat en Afrique et l'adoption de vastes programmes de privatisation des entreprises publiques, sommes-nous aujourd'hui en mesure de porter un regard critique sur les effets présumés de cette politique économique en matière de performance micro-économique des firmes concernées ? Face aux résultats plutôt mitigés des privatisations, comme formule simplifiée de la nouvelle politique économique des Etats ouest-africains, quelles autres perspectives s'offrent-elles à l'Etat en Afrique ? a-t-il encore un avenir ? Cet ouvrage propose un cadre d'analyse permettant d'apprécier les réalisations effectives des politiques économiques d'inspiration néolibérale en Afrique occidentale. Il offre en outre une occasion unique de réfléchir sur les nouveaux défis de la gouvernance publique en Afrique et permet de mieux comprendre les problèmes et les enjeux fondamentaux liés à l'émergence d'une nouvelle gestion publique. Les sujets abordés intéresseront non seulement les décideurs publics mais également les gestionnaires, chercheurs et spécialistes du tiers monde ainsi que les observateurs engagés.

Access to Justice Beyond the State Courts Aimé-Parfait Niyonkuru, 2022-06 Costliness, excessive delay, bias against the weak, corruption, underfunding, insufficiency of legal skills and shortage of training programmes for the judicial staff, in its diversity, complexity of legal rules and procedures including the language of both the law and the Court, dependency vis-à-vis the political authorities, these are flaws documented as hindering equal and effective access to Burundi's formal state court justice system. This book argues that engaging with out-of-court justice in Burundi's legal pluralism model may positively impact on people's access to justice.
