A Constitution for the Common Good W Elliot Bulmer, 2024-08-19 If Scotland has voted YES on 18 September how can a written Constitution be good for the people of Scotland If Scotland has voted NO how could a new Constitution protect and enhance Scottish democracy within a restructured UK Whether YES or NO a reconstituted Scotland is possible and good for all its citizens Nearly every democracy in the world is built upon a written constitution and constitutions have been at the core of citizens demands for better governance in places as disparate as Kenya Tunisia and Ukraine With the Scottish National Party promising a written constitution in the event of a YES vote and other parties suggesting other possible options for constitutional change in the event of a NO vote constitutional change looks certain to remain central to the political agenda in Scotland for some time to come But what is a constitution for Is it a defensive charter to protect the basic structures of democratic government or is it a transformative covenant for a better society How can the Constitution sustain democracy and promote ethical politics while at the same time recognising and accommodating differences in society What difference would a good Constitution make to the poor How can the Constitution help ensure that the common good of the citizenry prevails over private vested interests In addressing these questions this book sets out a vision for how Scotland could reconstitute itself It emphasises the connection between the constitution democracy and the common good arguing that democratic self government is the true prize regardless of the relationship of Scotland to the rest of the UK This book not only makes a vital contribution to Scotland s current and on going constitutional debate whatever the outcome in September 2014 but also engages with fundamental questions of constitutionalism and democracy that are of enduring relevance to both citizens and scholars around the world
