Reasons for Producer Subsidies

- To promote employment and entrepreneurship.
- To encourage the establishment of new businesses to help them in early stages of trading while they cannot compete effectively with more established businesses.

Effects of producer subsidies

- There will be an increase in the quantity demanded and supplied in the market.
- Prices will decrease and more consumers will be able to enjoy the goods.
- They create uncompetitive industries and these firms will not survive in the long-run, if there are no subsidies.

Types of subsidies:

- Production subsidies
- Export subsidies
- Employment subsidies
- Income subsidies

Subsidies encourage increased output of favoured products but distort resource allocation and can affect foreign trade

The effect of welfare
