Life, Learning, and Community David C. Brubaker, Joel H. Ostroff, 2023-07-03 This book represents the 18th of AAHE's series on service learning in the disciplines and focuses on service learning strategies and models in biology. Although there are obvious applications for service learning in such fields as nursing and teacher education, incorporating it into natural science courses has not always seemed practical to science instructors. This book not only provides strong arguments for using service learning in biology courses but also gives real life examples of how it has been successfully used in biology curricula.

Science, Technology and Society, 2000 *Unschooling To University* Judy L. Arnall, 2018-09-21 School is one option for education; homeschooling is the second, and unschooling is the third. Many parents are frustrated by the school system, perhaps because of bullying, crowded classrooms, and outdated, dull online courses. Disengaged learners that have no say in their coerced curriculum tend to act out, tune out, or drop out. Education must change, and unschooling is the fastest growing alternative method of learning. Two decades ago, students registered with their local school based on their house address. Now, with the internet, students are borderless. Learning can occur anywhere, anytime, anyway, and from anyone, including self-taught. Self-directing their education, unschoolers learn through play, projects, reading, volunteering, video games, sports, mentorship, travel, and life. This book explores the path of 30 unschooled children who self-directed all or part of their education and were accepted by universities, colleges, and other postsecondary schools. Most have already graduated. What children

need most are close relationships parents teachers siblings relatives coaches and mentors within a wider community not just within an institutional school Educational content is everywhere Caring relationships are not Families that embrace unschooling do not have to choose between a quality education and a relaxed connected family lifestyle They can have both
