Master Manipulator James Ottar Grundvig, 2016-05-31 The explosive true story of fraud embezzlement and government betrayal In 2000 the US Centers for Disease Control CDC carried out a secret mission to bury skew and

manipulate data in six vaccine safety studies in a coordinated effort to control the message that vaccines do not cause autism. They did so via secret meetings and backtesting health care data. The CDC invested tens of millions of dollars in a foreign health care data analytics startup run by Danish scientist Poul Thorsen, a move to ensure that no link ever surfaced. But fate had other ideas. The agency soon learned it couldn't control Thorsen. In 2011, the US Justice Department indicted him for the theft of more than 1 million of CDC grant money. *Master Manipulator* exposes the CDC's hidden agenda for the cover up. Influenced by Big Pharma money, future high-paying jobs, and political lobbyists, CDC executives charted a course different than what the findings of earlier vaccine safety studies revealed. The CDC needed an outsider to flatten the results of the data while building an exit strategy, a fall guy in case the secret plan was exposed. Thorsen fit the bill nicely, conducting studies overseas. But the CDC's plan backfired as Thorsen took the money to the bank and the power went to his head. It would take years for his fraud scheme funneling CDC grant money to a Danish university and then back to a CDC bank account, he controlled to play out. *Master Manipulator* is a true story of fraud and betrayal and an insider's view of what takes place behind the closed doors of agencies and drug companies and with the people tasked to protect the health of American children. It's a cautionary tale of the dangers of blind trust in the government and the health care industry. *The Death Law* Claire Cole Curcio, 2015-10-14. In the early decades of the twenty-first century, Congress unexpectedly passes a law stating that citizens over the age of seventy who can no longer care of themselves are subject to euthanasia by the government. When it is signed by the president, the so-called death law, hidden as a rider on legislation related to defense spending and designed to end a government shutdown, the public is appalled. Julia Sanchez, a veteran congressional staffer in her late fifties, is determined to fight the new law; her parents, Henry and Beatriz, are in their seventies and are in its crosshairs. Along the way, she joins forces with journalist Jake Jordan, who is vigorous and active in his career despite being in his midsixties. As the two work to counteract the law, they find themselves drawn more and more to each other, and Jake gradually becomes involved with Julia's parents and their caregiver Hattie. Can their combined efforts overcome the cruelty of the death law? In this novel, a congressional aide and an investigative journalist struggle against the terrible threat of a law ordering the death of senior citizens no longer able to care for themselves. While readers will be charmed by the beautiful story of love and devotion, both familial and romantic, they will also be challenged by the horrifying idea of a society willing to throw out its elderly.
