

1941 Wurlitzer 750/750E

24 selections, 78 rpm. The first Cathedral shaped jukebox, the 750 came with the standard piano keyboard or the new electrical keyboard. The 750 is breathtaking in a dark room. Production: 12,152

1941 Wurlitzer 780/780E

24 selections, 78 rpm. Known as the Wagon Wheel, featuring Early American styling, this model was supposed to appeal to the locations in which 750 was deemed "Too Flashy". The 780 cabinet is all wood with no lightup plastics. Production: 780: 2,800, 780E: 1,429

1942-45 Victory

Universal Cabinet. During the War, jukeboxes were not produced. These cabinets were made to "modernize" older Wurlitzers. Since metal & plastic were not available, "Victory" models were all glass & wood. They were big enough so that the guts from nearly any older model could be put in them, viola, a new box!

Wurlitzer 1015

24 selections, 78 rpm. The most famous jukebox ever made, the 1015 is the personification of the jukebox. The 1015 was turned into the public's consciousness with a gargantuan ad campaign. It was the first jukebox ever promoted directly to the public. Jukeboxes had not been produced since 1941. Locations were standing in line for any new jukebox. The other "3 giants in the jukebox world" produced new cabinets in 1946, with pre-war guts. Wurlitzer was the only jukebox manufacturer who did not come out with a new "look." The 1015 was a nice evolution of Fuller's style. 1015's started the "Jukebox Collecting Hobby" they were & are plentiful, they were & are beautiful, they were & are easy to work on, they were & are fixed in the memory of millions as THE JUKEBOX. Reproduction parts are available to such an extent that it is probably possible to buy every single part new, even the cabinet & assemble a 1015. At least 6 companies have or are manufacturing reproduction 1015's—including Rockola, Rowe, Seeburg, NSM & even Wurlitzer in Germany. The glow of the 1015 will live forever. Production: 58,535 (mb)

1946/47 Wurlitzer 1015

Almost 60,000 made

Wurlitzer 1017 Hideaway

24 selections, 78 rpm. Mechanically the same as the 1015 but in a concealed unit. It used wallboxes to make all selections.

Late 40's Ambassador

Many companies offered conversion kits for the 1015. These were to simplify maintenance. The Ambassador eliminated all bubble tubes & revolving light cylinders. The Ambassador also optionally replaced the front grill with horizontal lucite bars.
