

Fixed-Price or lump-sum contracts

- Involves fixed price for a well-defined product or service
- In this type of contract a specific price is agreed for the good or service being sold. In project terms, the buyer and seller will agree on a well-defined deliverable for a specific price
- In this type of contract the bigger risk is borne by the seller. They must make sure they make a profit even given some unknowns such as increasing costs or delays in creation of the deliverable
- Fixed price contracts can be catastrophic for both buyer and seller if there isn't a well defined deliverable.
- Firstly, often the sellers profit is eroded as they compromise to meet the buyer's demands.
- Secondly, the buyer may have to pay more for change requests when the supplier is no longer willing to compromise around what, in their eyes, appear to be changing requirements
