##### 1. Rules and procedures for Service Centres

For doing more difficult jobs, greater accessibility may be required. This can be done by taking the unit concerned off and working at the bench, or by removing the cover or other external parts. Whether or not this will be useful is at the discretion of the mechanic's experience.

##### 6. Repairs

This chapter deals with all the more complex work connected with the replacement or repair of malfunctioning or worn parts. The descriptions must follow a logical sequence and can include operations not specifically connected to a specific function or part.
