Exploring Science contains a range of differentiated material providing a variety of routes through the course making it ideal for a wide range of abilities. The course provides ideas for lessons and practical work together with assessment materials linked to the National Curriculum levels.

Management and Leadership for a Sustainable Africa, Volume 1 Kemi

Ogunyemi, Oreva Atanya, Vanessa Bursal, 2022-11-16 To effectively deliver sustainable management in practice for Africa we need responsible leadership. We need to deepen our understanding of sustainability in the unique socio-political and economic context of the continent. The roles of various actors across public, private and non-profit sectors as enablers of sustainable development need to be explored to understand the social, economic and environmental SEE trends in Africa and its emerging and developing economies as well as to chart the way forward for the continent. This first volume focuses on the African understanding of sustainability and its dimensions within its unique historical, social, environmental and political contexts. Through the lens of responsible leadership, the authors reflect on the implementation and extension of the SEE sustainability triad in ways unique to the African continent, especially in relation to the development of well thought out healthy and enduring policy frameworks and the promotion of good governance. The African scope of the book is hinged on collaboration from authors across Africa and the inclusion of case stories from emerging economies in the five African subregions: East, West, North Central and Southern Africa within the chapters. The core message is that to achieve effective and sustainable management and development for Africa, the practice of responsible leadership is critical.

The British National Bibliography Cumulated Subject Catalogue, 1960

Foundations and Theoretical Perspectives of

Distributed Team Cognition Michael McNeese, Eduardo Salas, Mica R. Endsley, 2020-09-28 The background and interwoven streams of team cognition and distributed cognition fermenting together has wielded new nuances of exploration which continue to be relevant for a theoretical understanding of team phenomena. *Foundations and Theoretical Perspectives of Distributed Teams Cognition* looks at fundamentals, theoretical concepts and how theory informs perspectives of thinking for distributed team cognition. The chapters yield a broad understanding of the nature of diverse thinking and insights into technologies, foundations and theoretical perspectives of distributed team cognition. Features: Generates historical patterns and significance that compose developmental trajectories. Explains multiple perspectives that incorporate an interdisciplinary understanding that specifies diverse theories. Identifies and develops particular challenges resident within team simulation studies and then illustrates research frameworks. Highlights and reviews how team simulations are used to produce dynamic experimental results. Investigates and studies research variables within distributed team cognition.

The British National Bibliography Arthur James Wells, 1968
