

A key objective has been set for this unit: to develop the ability to use mathematical skills in the context of physics. The unit is designed to provide a solid foundation for the study of physics and to develop the ability to use mathematical skills in the context of physics.

The unit is divided into two main sections: the first section is devoted to the study of kinematics and the second section is devoted to the study of dynamics. The unit is designed to provide a solid foundation for the study of physics and to develop the ability to use mathematical skills in the context of physics.

#### Objectives

- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.

#### Activities

The unit is divided into two main sections: the first section is devoted to the study of kinematics and the second section is devoted to the study of dynamics. The unit is designed to provide a solid foundation for the study of physics and to develop the ability to use mathematical skills in the context of physics.

- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.
- To develop the ability to use mathematical skills in the context of physics.

The unit is divided into two main sections: the first section is devoted to the study of kinematics and the second section is devoted to the study of dynamics. The unit is designed to provide a solid foundation for the study of physics and to develop the ability to use mathematical skills in the context of physics.
