California in a Time of Excellence James Andrew LaSpina, 2009-02-26 California in a Time of Excellence follows the Golden State's efforts to reform its public school system from 1983 to the present. Beginning with progressive curriculum reform initiatives that were launched even before the National Commission on Excellence in Education (NCEE) issued *A Nation at Risk* in 1983, James Andrew LaSpina traces these reform efforts through recurring culture wars, major clashes of personality, and a conflict between the state's tradition of progressive educational policy and a culture of conservatism that colored much of the so-called Left Coast's history since the sixties. While the battles over curriculum reform in California reflect those at the national level, the political world surrounding this conflict reveals the enormous significance of the conflict and its implications for our national future. *Biennial Report of the State Superintendent of Public Education to the Legislature of Mississippi for the Years ...* Mississippi. State Department of Education, 1890 [Outline of Grade Attainments in Library Use for Grades 10, 11, and 12](#) Oakland (Calif.). Board of Education, 1928 **Design for Learning** Northrop Frye, 1962-12-15 This important book is the result of a study of school curriculum undertaken by a joint committee of the University of Toronto and the Board of Education for the City of Toronto. Three sub-committees dealing with English, Social Science, and Physical Science here present preliminary reports which indicate the need for perpetual study if the school curriculum is to be kept abreast of modern developments in each discipline. Committee members responsible for the reports are themselves elementary, secondary, or university teachers of experience. Their recommendations embracing all grades up to and including Thirteen are specific, stimulating, and controversial. They are unanimous only in their concern that necessary changes be made and that study of the curriculum be continuous and objective. The reports are prefaced by a discerning essay written by Northrop Frye. Principal Frye points out that the real barriers to break down were those between the three major divisions of education: the primary, secondary, and university levels, each of which tends to become a self-enclosed system congratulating itself on its virtues and blaming whatever deficiencies the educational process as a whole may have on the other systems. This book will be of interest to teachers at all levels, to officials responsible for policy in our public education, to trustees, to parents, and to the increasing number of general public who care about education. The Chairmen of the three committees were: English, Mary Campbell Parkdale Collegiate Institute; Social Science, C. B. Macpherson, Department of Political Economy, University of Toronto; Physical Science, Charlotte M. Sullivan, Department of Zoology, University of Toronto. The Editor, Northrop Frye, is Principal of Victoria College, University of Toronto. **Managing the Social Studies Curriculum** Kent Freeland, 1994-10-28 To learn more about Rowman Littlefield titles, please visit us at www.rowmanlittlefield.com *Manual of Examinations for the ...*, 1915 **The School Journal**, 1902 **International Index to Periodicals**, 1915 An author and subject index to publications in fields of anthropology, archaeology, and classical studies, economics, folklore, geography, history, language, and literature, music, philosophy, political science, religion, and theology, sociology, and theatre arts. **Circular - Office of Education** United States.
