The book covers topics such as IoT network design and architecture, IoT network virtualization, IoT sensors, privacy and security for IoT, SMART environment, social networks, data science and data analytics, cognitive intelligence and augmented intelligence, and case studies and applications.

**Creative Management and Development** Jane Henry, 2006-09-18. Creative Management and Development has been updated with newly commissioned and leading edge chapters on intuitive cognition, complexity, emotion, team innovation, development, and well-being. The textbook retains seminal papers on creativity, perception, style, culture, and sustainable development. The contributors to this textbook represent a broad spectrum of perspectives from among the most distinguished names in the field. They give a clear overview of the topics discussed whilst explaining their practical implications. This textbook is published as a Course Reader for The Open University Course Creativity, Innovation and Change B822.

**Strategic Human Resource Management and Development** Richard Regis, 2008. Strategic Human Resource Management has been a topic familiar to many. But this book approaches the same topic in a current global economy with so many Indian business houses venturing into acquiring global giants and establishing themselves atop of the world of business in our growing economy. This means that with electronic communication making the world into a global village and virtual organizations and learning having made the distinction between place and space not a matter of importance, strategies to be adapted by the HR professionals should be totally new. That is where this book is having a new approach to SHRM. It is interspersed with contemporary Indian cases and experience to fall back on to illustrate the different strategies HR has to play as a business partner. Issues in employee privacy in case of virtual organizations have been vividly dealt with. Gone are the days of the fire-fighting role of HR professionals. They are required to play a vital role being part of the business strategy not only at the domestic arena but also in the global business. Challenges involved in building multicultural organizations, cross-border merger and acquisition, and repatriation and outsourcing are topics that are significant in the local as well as the global human resource management which are discussed extensively. The book explains career planning and development and compensation packages in the context of competencies and balanced scorecard. When speed and alacrity are demanded of all the employees to stay ahead of competition, the employees are required to put in extended hours and work in a stressful environment. Hence the new era HR professional has to resort to developmental activities through mentoring, coaching, counseling, stress management, and emotional balance. The book is divided into five parts. Apart from the stories narrated within the text of the book and some exercises, there is a separate section of cases at the end of the book to augment the concepts narrated in each part. It would not only fully meet

the requirements of MBA students but would also give new direction to the practicing HR professionals      *The Knowledge-creating Company* Ikujiro Nonaka, Hirotaka Takeuchi, 1995 The authors contend that Japanese firms are successful because they are innovative and not merely masters of imitation as some think and because they create new knowledge and use it to produce successful products and technologies Illustrations      **Innovation Management** Rajat Soni, 2009-12 This book on innovation management charts the shift to a more systemic view of creativity and the greater attention now paid to the role of tacit knowledge Further it elaborates on the way in which cognitive style and personality type affect how we set about problem solving decision making and change and the different kinds of culture organisations need to encourage creativity It also discusses developing creativity and innovation organisational knowledge creation adaptors and innovators etc      Knowledge Management Daryl Morey, Mark T.
