General and commercial directory and topography of the borough of Sheffield White Francis and co,1862 The Routledge Handbook of Archaeological Human Remains and Legislation Nicholas Marquez-Grant,Linda Fibiger,2011-03-21

Methodologies and legislative frameworks regarding the archaeological excavation retrieval analysis curation and potential reburial of human skeletal remains differ throughout the world As work forces have become increasingly mobile and international research collaborations are steadily increasing the need for a more comprehensive understanding of different national research traditions methodologies and legislative structures within the academic and commercial sector of physical anthropology has arisen The Routledge Handbook of Archaeological Human Remains and Legislation provides comprehensive information on the excavation of archaeological human remains and the law through 62 individual country contributions from Europe Asia Africa North America South America and Australasia More specifically the volume discusses the following What is the current situation including a brief history of physical anthropology in the country What happens on discovering human remains who is notified etc What is the current legislation regarding the excavation of archaeological human skeletal remains Is a license needed to excavate human remains Is there any specific legislation regarding excavation in churchyards Any specific legislation regarding war graves Are physical anthropologists involved in the excavation process Where is the cut off point between forensic and archaeological human remains e g 100 years 50 years 25 years Can human remains be transported abroad for research purposes What methods of anthropological analysis are mostly used in the country Are there any methods created in that country which are population specific Are there particular ethical issues that need to be considered when excavating human remains such as religious groups or tribal groups In addition an overview of landmark anthropological studies and important collections are provided where appropriate The entries are contained by an introductory chapter by the editors which establish the objectives and structure of the book setting it within a wider archaeological framework and a conclusion which explores the current European and world wide trends and perspectives in the study of archaeological human remains The Routledge Handbook of Archaeological Human Remains and Legislation makes a timely much needed contribution to the field of physical anthropology and is unique as it combines information on the excavation of human remains and the legislation that guides it alongside information on the current state of physical anthropology across several continents It is an indispensable tool for archaeologists involved in the excavation of human remains around the world Jerusalem Pilgrimage, 1099-1185 John Wilkinson,Joyce Hill,2017-05-15 In the Latin Kingdom of Jerusalem many pilgrims came to Jerusalem The translations in this book are of seventeen western accounts of pilgrimage written between 1099 and 1185 and there are two additional accounts from eastern pilgrims Abbot Daniel from Russia and

John Phocas from Antioch As a whole this collection shows the gradually developing way in which western Christians understood the Holy Places Some early pilgrims depended on authorities many of whom by 1099 were out of date They tried to deliver the truth about the Holy Places and to be reticent about their own reactions But the pilgrims who appear later in the collections made their own archaeological judgements and were more free about their own reactions Pilgrimage after 1099 was altered by the fact that by their victory over Jerusalem the Dome of the Rock fell into the Crusader s hands Otherwise the differences of practice between eastern and western pilgrims were slight Thus eastern pilgrims visited the Greek and western pilgrims the Latin monasteries Western pilgrims had a different idea of the location of Emmaus and before 1185 a western Way of the Cross was beginning to take shape These were slight differences and in general all Christian pilgrims whether from east or west visited the same Holy Places as they had during the preceding period Most of the works in this collection were translated into English a century ago by the Palestine Pilgrim s Text Society But these texts were produced separately as pamphlets and lacked a general introduction In this book therefore the texts are retranslated sometimes from more accurate texts In introducing the texts some valuable new evidence from archaeology has been used and enabled a new assessment of their dates
