

JRC **GPS COMPASS** **JLR-10**

The new technology JLR-10 is a type of compass which uses GPS signals to produce the ship's heading information.

The compass consists of an antenna unit, processing unit and display unit.

Connection to JRC Radar models JMA-3800 and JMA-3900 series can be fully operable in both the North Up and MARPA or ATA function.

- **JRC original 2 antenna type**

The JLR-10 adopts 2 antenna type which is superior in the direction accuracy, availability and easy installation.

- **No Maintenance and No Calibration**

The JLR-10 needs no maintenance, compared to a standard gyrocompass which needs both regular maintenance and calibration. In addition the JLR-10 has the following features.

- **Short Setting Time**

The JLR-10 outputs direction information typically 3 minutes after power on.

- **Including GPS Receiver Functions**

The JLR-10 outputs position and ground speed data as well as ship's heading.

- **Synchro Signal output (Optional)**

The JLR-10 connects with Synchro-type of repeater compass, radar auto-pilot, sonar and tide meter through the optional interface.

- **Direct connection to JRC JMA-3800 and JMA-3900 series Radars**

The JLR-10 outputs high speed JRC NSK Format to directly connect to the JRC Radar JMA-3800 and the JMA-3900.

Jane's Space Directory ,2002 **Yachting** ,2002-06 Interavia Space Directory ,1992 *Comparative Law in Practice* Duncan Fairgrieve,2016-10-20 This book provides a comparative study of contract law examining the interaction of common law and civil law approaches to contract law Drawing extensively upon English French and European law the book explores how the law of contract of Jersey Channel Islands has been influenced by both civil law and common law sources It is argued that this jurisdiction is a striking example of comparative law in action given that Jersey contract law is made up of a blend of common law and civil law approaches Jersey law is premised upon a subjective approach to contracts in which civil law concepts such as cause rather than consideration and vices de consentement are the foundational aspects but is nonetheless highly influenced by the common law in areas such as remedies damages termination etc The book analyses a series of key issues from a comparative and European perspective including the principles underlying contract law comparing and contrasting civil and common law approaches the formation of contract requirements of reciprocity cause vs consideration the structure and approach of precontractual liability the role of good faith in a mixed system the architecture of remedies and more **Fitness to Plead** Ronnie Mackay,Warren Brookbanks,2018-06-20 The law relating to fitness to plead is an increasingly important area of the criminal law While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account the doctrine of fitness to plead calls this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial In light of the emerging focus on capacity based approaches to decision making and the international human rights requirement that the law should treat defendants fairly this volume offers a benchmark for the theory and practice of fitness to plead providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under discussed and under researched The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing yet despite the doctrine s long standing function in criminal procedure it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions Particularly troublesome is the question of what is to be done with someone who has been found unfit to stand trial Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial whether permanently or for a defined period and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour The challenge for law reformers legislators and judges is to create rules that ensure that everyone who can properly be tried is tried while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it **Ship & Boat International** ,2006 **Shipping World & Shipbuilder** ,2003 *Guide to GPS Positioning* David Wells,Norman Beck,Canadian GPS Associates,1987 The Guide to
