Related Party Transactions and Corporate Groups Ivan Romashchenko, 2020-03-06 In a market environment where economic actors conduct themselves as diligent and conscientious managers the regulation of related party transactions RPTs would be largely irrelevant Unfortunately the

**Proportionality and Facts in Constitutional Adjudication** Anne Carter, 2022-01-27

This book considers the relationship between proportionality and facts in constitutional adjudication. Analysing where facts arise within each of the three stages of the structured proportionality test: suitability, necessity, and balancing, it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation. The book's central focus is on how proportionality has been applied by courts in practice and it draws on the comparative experience of four jurisdictions across a range of legal systems. The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests. The rich proportionality jurisprudence from Germany, Canada, and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages. The book has three broad aims. First, it considers the role of facts within proportionality reasoning. Second, it offers procedural insights into fact finding in constitutional litigation. Third, the book's analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment. Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three-part test of proportionality, the Court has continued to disagree about the utility of such a test. These developments mean that this book with its doctrinal and comparative approach is particularly timely.
