Achievement and Inclusion in Schools Lani Florian, Kristine Black-Hawkins, Martyn Rouse, 2016-07-22 Thoroughly updated to reflect the challenges of diversity in today's schools this new edition of *Achievement and Inclusion in Schools* shows how high levels of inclusion can be entirely compatible with high levels of achievement and that combining the two is not only possible but also essential if all students are to have the opportunity to participate fully in education Each chapter has been fully revised to reflect an understanding of inclusion as being concerned with the learning and participation of everyone in a changing education policy context Based on new case study research this edition sets out to answer the following questions Are there strategies which can raise the achievement of all students while safeguarding the inclusion of others who are more vulnerable How can schools ensure high levels of inclusion as well as high levels of achievement for everyone How might research into these matters be carried out With new case studies in this second edition that reflect the devolution of education policy in the four countries of the UK this book addresses concerns about how schools can respond to differences between learners without marginalising some of them It offers guidance to practitioners as well as those undertaking research on this important topic

Assessment Policy Reform Tina Isaacs, Iasonas Lamprianou, 2020-05-21 This book highlights the impact of policy and politics on assessment across the globe With contributions from England the Irish Republic Northern Ireland Norway Sweden Switzerland and Wales it explores state led assessment policies and practices that have been the subject of much debate We are experiencing a shift from using assessments especially national tests as measurement instruments designed to produce information to a reliance on tests to influence policy and instruction Once tests become high stakes for students teachers and schools even those that might have been reasonable monitors of educational success can lose dependability and credibility However not all countries assessment policies follow the same model and the contributors explore and analyse a range of different national and supra national assessment policy approaches and perspectives The chapters identify the impetus behind changing assessment policies and practices and analyse ways forward and innovative approaches Readers can draw their own conclusions about which model's can provide the best outcomes for learners surely the most important part of the equation This book was originally published as a special issue of *Assessment in Education Principles Policy Practice Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons, 2013

Evidence-informed reasoning of pre- and in-service teachers Ingo Kollar, Martin Greisel, Robin Stark, 2023-06-14

Support Not Surveillance: How to solve the teacher retention crisis Mary Boustead, 2022-04-08 Why are so many teachers leaving the profession increasingly early in their careers What harm is being done to pupils' educational prospects by persistent teacher shortages Why are teachers held uniquely responsible for the effects of poverty on children's progress and attainment What are the unintended consequences of rushed government education policy making And what can be done about all of the above Supported by the latest international and national evidence *Support Not Surveillance* seeks to address these important questions Laying bare how

the inadequacy of Westminster policies is compounded by an unfair Ofsted inspection regime Dr Mary Bousted draws on her years of expertise and access to decision makers to expose the gap between ministerial rhetoric and the daily reality encountered by teachers in their classrooms across England Ending on a set of proposals to move beyond the seemingly perennial crisis in teacher recruitment and retention Support Not Surveillance is an unflinching call to end the failed experiment of government interventionism in classrooms

The Linguistic Challenge of the Transition to Secondary School Alice Deignan,Duygu Candarli,Florence Oxley,2022-12-30 This book provides a unique analysis and description of the linguistic challenges faced by school students as they move from primary to secondary school a major transition which some students struggle with emotionally and academically The study draws on a bespoke corpus of 2.5 million words of written materials and transcribed classroom recordings provided by the project's partner schools combines quantitative and qualitative approaches to the corpus data to explore linguistic variation across school levels registers and subjects describes the procedures of corpus compilation and analysis of written and spoken academic language showing how modern corpus tools can be applied to this far reaching social and educational issue uncovers differences and similarities between the academic language that school children are exposed to at primary and secondary school contrasting this against the backdrop of the non academic language that they encounter outside school This book is important reading for advanced students and researchers in corpus linguistics applied linguistics and teacher education It carries implications for policymakers and schools looking to support students at this critical point in their schooling The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
