

# MATTER STUDY GUIDE

Everything on earth is made of matter.

**Matter is everywhere!**

There are 3 states of matter.

Students need to be able to name the three states and give an example of each!

| Solid                                                                                                 | Liquid                                                                                                 | Gas                                                                                                     |
|-------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| A solid has its own shape.                                                                            | Liquids do not have a shape. They take the shape of their container.                                   | Gases have no shape. They fill the container they are in.                                               |
| <u>Examples:</u><br> | <u>Examples:</u><br> | <u>Examples:</u><br> |

Water can be all three states of matter.

|                                                                                          |                                                                                             |                                                                                                    |
|------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
| Water as a Solid                                                                         | Water as a Liquid                                                                           | Water as a Gas                                                                                     |
| ICE<br> | WATER<br> | WATER VAPOR<br> |

Properties describe matter, how it looks and feels.

Properties can be color, shape, size and texture.

Students should understand matter can change by:

|                                                                                                |                                                                                                   |                                                                                                  |                                                                                                    |
|------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
