method you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only other people can do. It's about being smart with how you learn. Learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking mission that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking missions with other learners, getting and giving feedback and extending your learning beyond the pages of the book. You don't need to go abroad to learn a language any more.
