The Oxford Handbook of Offshoring and Global Employment Ashok Bardhan, Dwight M. Jaffee, Cynthia A. Kroll, 2013-04-09 The Oxford Handbook of Offshoring and Global Employment deals with a key issue of our time: How do globalization, economic growth, and technological developments interact to impact employment? The book brings together eminent authors from a wide range of countries around the world, drawing on their diverse academic and policymaking backgrounds and specific national or regional settings to assess how global economic changes have affected employment opportunities. The book is unique in a number of ways. It has a global reach, presenting analyses and viewpoints from both developed and developing countries from all continents. Its timing and context is particularly instructive since most papers are located in the aftermath of the global financial crisis, and it addresses a wide range of questions: How do different types of offshoring and global linkages impact employment? How is the skill mix of the labor force impacted by globalization? How do institutional structures and regulations influence the outcome of globalization in developed and developing countries? Individual chapters analyze how the impact of global linkages on national economies is mediated through a number of structural aspects of the economy: its institutional and industrial structure, its resource base, its predominant firm type, its comparative advantage, and its regulatory practices. The chapters in the book cover both manufacturing and services sectors, and many chapters also address policy issues regarding innovation and job creation.

A Guide to Educational Programs in Noncollegiate Organizations, 1982

The American Poet Laureate Amy Paeth, 2023-05-16 The American Poet Laureate shows how the state has been the silent center of poetic production in the United States since World War II. It is the first history of the national poetry office, the U.S. poet laureate, highlighting the careers of Elizabeth Bishop, Robert Frost, Gwendolyn Brooks, Robert Pinsky, Tracy K. Smith, Juan Felipe Herrera, and Joy Harjo at the nation's Capitol. It is also a history of how these state poets participated in national arts programming during the Cold War. Drawing on previously unexplored archival materials at the Library of Congress and materials at the John F. Kennedy Presidential Library, Amy Paeth describes the interactions of federal bodies, including the Central Intelligence Agency, the State Department, and the National Endowment for the Arts, with literary organizations and with private patrons, including Prozac heiress Ruth Lilly. The consolidation of public and private interests is crucial to the development of state verse culture, recognizable at the first National Poetry Festival in 1962, which followed Robert Frost's

Mission to Moscow and which became dominant in the late 1990s and early 2000s The American Poet Laureate contributes to a growing body of institutional and sociological approaches to U S literary production in the postwar era and demonstrates how poetry has played a uniquely important and largely underacknowledged role in the cultural front of the Cold War
