Date: 16/01/2023

In addition to Part-I (General Handout for all courses appended to the timetable), this portion gives further specific details regarding the course.

Course Code : ME F321
Name of the Course : Data Mining in Mechanical Sciences
Instructor-In-Charge : Dr. Kundan Kumar Singh

Scope and Objective of the Course: The primary focus of this course is on application of data mining methods in mechanical sciences and engineering. Following are the detailed objectives of this course:

- Understanding the fundamental of data mining.
- Building mathematical foundation for data mining.
- Knowledge of data capturing to minimize the information losses.
- Understanding of patterns in data, data classification and clustering.
- Knowledge of application of identified patterns in data in fields like in-process monitoring, machine monitoring, defect analysis, machine and maintenance scheduling etc.
- Understanding of different prediction methods based on the data processing
- Understand the difference between artificial intelligence, machine learning and deep learning.
- Knowledge of which data mining methods should be used for what type of data.
- Understanding the concept of big data in manufacturing and how to handle it.
