Relations and director of the Renewing America initiative and Rebecca Strauss associate director of Renewing America focus on those areas of economic policy that are the most important for reinforcing America's competitive strengths. Covering education, transportation, trade and investment, corporate tax, worker retraining, regulation, debt and deficits, and innovation, *How America Stacks Up* shows how in a highly competitive global economy these seemingly domestic issues are all crucial to U.S. success in the global economy. The line between domestic economic policy and foreign economic policy is now almost invisible, and getting these policies right matters for more than just U.S. living standards. The United States' ability to influence world events rests on a robust competitive economy. But without further investment in education, infrastructure, and innovation, Alden and Strauss show the United States runs the risk of endangering its greatest competitive advantage. Through insightful analysis and engaging graphics, *How America Stacks Up* outlines the challenges faced by the United States and prescribes solutions that will ensure a healthy competitive U.S. economy for years to come.
