 ret California Superior Court Judge **Reference Manual on Scientific Evidence** National Research Council, Federal
 Judicial Center, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on the Development of the
 Third Edition of the Reference Manual on Scientific Evidence, 2011-10-26 The Reference Manual on Scientific Evidence Third
 Edition assists judges in managing cases involving complex scientific and technical evidence by describing the basic tenets of
 key scientific fields from which legal evidence is typically derived and by providing examples of cases in which that evidence
 has been used First published in 1994 by the Federal Judicial Center the Reference Manual on Scientific Evidence has been
 relied upon in the legal and academic communities and is often cited by various courts and others Judges faced with disputes
 over the admissibility of scientific and technical evidence refer to the manual to help them better understand and evaluate
 the relevance reliability and usefulness of the evidence being proffered The manual is not intended to tell judges what is good
 science and what is not Instead it serves to help judges identify issues on which experts are likely to differ and to guide the
 inquiry of the court in seeking an informed resolution of the conflict The core of the manual consists of a series of chapters
 reference guides on various scientific topics each authored by an expert in that field The topics have been chosen by an
 oversight committee because of their complexity and frequency in litigation Each chapter is intended to provide a general
 overview of the topic in lay terms identifying issues that will be useful to judges and others in the legal profession They are
 written for a non technical audience and are not intended as exhaustive presentations of the topic Rather the chapters seek
 to provide judges with the basic information in an area of science to allow them to have an informed conversation with the
 experts and attorneys Study Material Based on NCERT English Class - X Rajamohan Srivastava, , Amit
