## **Formula Guide Coated Uncoated Matte:**

*Color in Graphic Design* Daniela Queiroz, Lucas Almeida, 2020-02-25 Color is an essential factor in design considering that it has a significant impact on the performance of the brand's communication marketing and sales. The color should not be chosen just because we like it or because we think it looks good since these are subjective values. There must be research on their meanings and associations, always remembering that they depend on cultural perceptions and that it is therefore important to know the audience we are working for. We often face the situation of not knowing which colors to choose for each of our designs due to the lack of knowledge about color theory and psychology. Unfortunately, the internet is full of inaccurate information. Still, in this e-book, we have addressed these topics correctly so the color selection process for each of your projects becomes an easy task.

**Step Inside Design**, 2003 *Design Elements, Color Fundamentals* Aaris Sherin, 2012-01-01 Color is an integral part of any design solution. *Design Elements Color Fundamentals* is an essential resource for designers who want to create memorable design and successfully communicate with their audience. Realize the basic tenets of color theory as it is broken down into clear and actionable directives. Uncover tips and techniques for using color in client-based design work.
