Propaganda and Ideology in the Russian-Ukrainian War Jon Roozenbeek,2024-05-23 The first analysis and history of Russian propaganda in Ukraine how it works and its key weaknesses *The Meritocracy Trap* Daniel

Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd,2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a

number of states have singled out international immigration as the greatest political and social threat to their cultural and national security. The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism, instability and criminality. The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced. These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone. This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Content: INTRODUCTION by Arman Teke Lloyd; PART A Ideology and Governance of Migration; CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe: Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin; CHAPTER 2 A Forest with many trees: Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli, Rebecca Mavin and Giorgia Trasciani; CHAPTER 3 Policing Migrants in Transit and Upon Arrival: The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson; PART B Regulations: Suspension of Human Rights; CHAPTER 4 Borders, Exception and Sovereignty: Australia's Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu; CHAPTER 5 Power and Sandwiched Sovereignty: Nepali Migrant Workers in the Gulf Countries by Hari KC; CHAPTER 6 The Body and Embodied Experiences in the British Asylum System: Developing a Conceptual Perspective by Rebecca Mavin; CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands: Wellbeing and Health by Anna de Haan, Yodit Jacob, Trudy Mooren and Winta Ghebreamichael; PART C Migrants: Strategies and Identities; CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo: Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou; CHAPTER 9 Urban Resistances and Migrant Activism: Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas; CHAPTER 10 RefConnect: A Mobile Social Network for Refugees by Evdokia Kogia, Styliani Liberopoulou, Nikolaos Alamanos, Vasilis Pierros and Christos Michalakelis; CHAPTER 11 Halo Halo: Nostalgia and Navigating Life for Overseas Filipino Workers (OFWs) in the Kingdom of Saudi Arabia by Simeon S.
