can't sleep immediately after going to bed as their brain does not stop thinking. If thoughts are not controlled by us, it leads to feelings generated by our chemical body. Feeling like overthinking, anxiety, stress, depression, negative thinking, worrying, fear, panic attacks to come out of these feelings, you have to control thoughts. If you control thoughts, you can control the mind. Below is the formula: MIND CONTROL THOUGHTS FEELINGS. When you master your thoughts, your mind is a 360° view of your life. The only way of controlling thoughts is mindfulness practice. Mindfulness is a key. Apart from mindfulness, the practice is the key everyone knows the solutions to their problems, but maximum people fail to implement in their life, so remember practice is the key. Practice, practice, practice, practice, practice, practice, practice, practice, practice. **Outsmart Your Instincts** Adam Hansen, Ed Harrington, Beth Storz, 2017-01-10. Evolution is killing innovation. Just trust your gut is great advice when your instincts tell you to run from a lion in the jungle. But when it comes to thinking innovatively about your business, those same instincts can be your own worst enemy. Cognitive biases, the instinctual mental shortcuts we all have in our brains that shape how we see and respond to the world around us, can also be the arch-nemeses of innovation. Innovative thinking: new ideas appear too risky. Data gets discounted if it doesn't match the hypothesis of the researcher. And even like-minded innovation enthusiasts can find that enacting disruptive change is tough when they all see things the same way. It's time to let go and learn a new way to think. Created by innovation experts, **Outsmart Your Instincts** cleverly merges behavioral science with business savvy. Using the trademarked Behavioral Innovation model, the authors provide an in-depth examination of eight unique biases: negativity, confirmation, and conformity among them, that get in the way of creativity, creative thinking, and show us how we can overcome these barriers and break from the status quo. With clever thought-provoking activities, accessible writing, and easy-to-follow advice, **Outsmart Your Instincts** shows us how and why we react to new ideas the way we do and then helps us rethink what we think. Once we learn to outsmart our own instincts, we can take on challenges as true innovators who rely on all of our brain's powers, not just our guts, and be equipped to outsmart the competition. **The Experts' Guide to 100 Things Everyone Should Know How to Do** Samantha Ettus, 2009-03-04.
