How Quot God Quot Works A Logical Inquiry On Faith:

How "God" Works Marshall Brain, 2015-01-06 Does God exist Using an intellectually rigorous scientific approach Marshall Brain the founder of HowStuffWorks com and author of the How Stuff Works series sets out to resolve the eternal debate once and for all With a compelling sense of curiosity he breaks down mankind s search for a higher power tackling such quandaries as Who is God What are his attributes What is God doing and why How does God interact with humanity And ultimately how can humans know with certainty whether God is real or imaginary How God Works is an enlightening journey in critical thinking that challenges readers to boldly approach the subject of personal faith and put aside intuition in favor of objectivity and logic Faith, Reason and the Existence of God Denys Turner, 2004-09-16 The proposition that the existence of God is demonstrable by rational argument is doubted by nearly all philosophical opinion today and is thought by most Christian theologians to be incompatible with Christian faith This book argues that on the contrary there are reasons of faith why in principle the existence of God should be thought rationally demonstrable and that it is worthwhile revisiting the theology of Thomas Aquinas to see why this is so The book further suggests that philosophical objections to proofs of God s existence rely upon an attenuated and impoverished conception of reason which theologians of all monotheistic traditions might wish to reject Denys Turner proposes that on a broader and deeper conception of it human rationality is open to the sacramental shape of creation as such and in its exercise of rational proof of God it in some way participates in that sacramentality of all things **The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **Faith and Freedom** Michah Gottlieb, 2011-03-02 Moses Mendelssohn has been cast by some scholars as a Jewish traditionalist who uses enlightened German philosophy to bolster his pre modern religious beliefs by others as a radical Deist who defends Judaism in order to avoid opposition from his co religionists while facilitating their social integration into enlightened European society Michah Gottlieb offers a new reading of Mendelssohn s life and writings arguing that he defends pre modern Jewish religious concepts sincerely but unconsciously gives them a humanistic valence appropriate to life in a diverse enlightened society **The Champion of the faith against current infidelity, ed. by J.**
