How To Check My Admission Status At Turfloop:

The Law and the Prophets Daniel R. Magaziner, 2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in *The Law and the Prophets* the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country's best known anti-apartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore how and why *The Law and the Prophets* is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous anti-apartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period might we begin to understand the dramatic changes that took place Publisher description

Investigating Corruption and White-collar Crime in South African Higher Education Bethuel Sibongiseni Ngcamu, 2025-10-16 Using an interpretivist approach this qualitative volume interrogates instances of corruption and white collar crime prevalent in South African higher education institutions and suggests pathways for the proactive detection and prevention of corrupt practices Contextualizing the author's practical experiences gained in the higher education sector over the past two decades this book employs an ethnographical method to explore the complexity of university systems structures and functions that make South Africa's formerly disadvantaged universities more susceptible to corruption In the midst of highly contested divisive and highly politicized ways of reporting corruption in the media chapters provide critical analyses guided by scientific approaches robust data sets and qualitative face to face interviews to underpin the reliability of proposed policy amendments intended to detect and prevent corruption and white collar crime as well as the suggested closure of loop holes that make the sector vulnerable to and known for a high level of criminality Making a substantial contribution to broader academic debate around corruption and university management internationally this book will be of interest to researchers and postgraduate students in the field of higher education higher education management and administration and education policy and politics Policy makers in both the Global South and North are also likely to benefit from this book
