Caitrin Lynch, 2016-05-02 When a government program brought garment factories to rural Sri Lanka women workers found
themselves caught between the pressures of a globalizing economy and societal expectations that villages are sanctuaries of
tradition These women learned quickly to resist the characterization of Juki girls female garment workers already established
in the urban sector as vulgar and deracinated instead asserting that they were good girls who could embody the nation s
highest ideals of femininity Caitrin Lynch shows how contemporary Sri Lankan women navigate a complex web of political
cultural and socioeconomic forces Drawing on extensive ethnographic research conducted inside export oriented garment
factories and a close examination of national policies intended to ease the way for globalization Lynch details precisely how
gender nationalism and globalization influence everyday life in Sri Lanka This book includes autobiographical essays by
garment workers about their efforts to attain the benefits of being seen as good while simultaneously expanding the
definition of what sort of behavior constitutes appropriate conduct These village garment workers struggled to reconcile the
role thrust upon them as symbols of national progress with the negative public perception of factory workers Lynch provides
the context needed to appreciate the paradoxes that globalization creates while painting a sympathetic portrait of the
individuals whose life stories appear in this book **American Perspectives on Learning Communities and**
