

TEST BANK FOR WILLIAMS BASIC NUTRITION AND DIET THERAPY 16TH EDITION BY NIX WILLIAM

Chapter 01: Food, Nutrition, and Health

Nix: Williams' Basic Nutrition and Diet Therapy, 16th Edition

MULTIPLE CHOICE

- Promoting a health care service that improves diabetes management for the elderly in a community would assist in which of the following?
 - Supporting the national health goals *Healthy People 2020*
 - Reducing hunger in a subset of the United States population
 - Improving Medicare reimbursement claims
 - Providing access to primary health care services

ANS: A

Healthy People 2020 has a wide influence and is the focus of the nation's main objective to promote health and prevent disease.

DIF: Cognitive Level: Application

REF: p. 2

TOP: Nursing Process: Implementation
MSC: NCLEX: Health Promotion and Maintenance

MSC: NCLEX: Health Promotion and Maintenance

- A patient requires a nutrition assessment. The most appropriate professional to perform the assessment is a
 - physician.
 - nurse.
 - public health nutritionist.
 - registered dietitian.

ANS: D

The registered dietitian is the nutrition expert registered with the Commission of Dietetic Registration (CDR), the certifying agency of Academy of Nutrition and Dietetics. Registered dietitians are the only professionals who have met strict educational and professional prerequisites and passed a national registration examination that properly prepares them to conduct a nutrition assessment.

Elsevier Test Bank Questions Nutrition:

Williams' Essentials of Nutrition and Diet Therapy - E-Book Joyce Ann Gilbert, Eleanor Schlenker, 2023-05-17

Selected for Doody's Core Titles 2024 with Essential Purchase designation in Nutrition Master the essentials of nutrition science and patient care with this concise text Williams' Essentials of Nutrition and Diet Therapy 13th Edition helps you understand and apply nutrition concepts in the treatment of disease, disease prevention and life enhancement. The text is broken out into three parts: the basics of nutrients and the body, the life cycle and community nutrition, and clinical nutrition. Case studies help you determine nutritional interventions in treating both acute and chronic conditions. Written by nutrition specialists Joyce Gilbert and Eleanor D. Schlenker, this book includes the latest advances in research and evidence-based practice. Strong community focus includes robust coverage of health promotion, cultural competence, patient safety, lifespan, and public health issues. Person-centered approach helps you develop practical solutions to individual problems based on the authors' personal research and clinical experience. MyPlate for Older Adults is included as developed by nutrition scientists at Tufts University and the AARP Foundation, along with the Nestlé Mini Nutritional Assessment Scale. Health Promotion sections help you with nutrition education, stressing healthy lifestyle choices and prevention as the best medicine. Case studies provide opportunities for problem solving, allowing you to apply concepts to practical situations in nutrition care. Evidence-Based Practice boxes emphasize critical thinking and summarize current research findings. Focus on Culture boxes highlight cultural competence and the nutritional deficiencies, health problems, and appropriate interventions relating to different cultural, ethnic, racial, and age groups. Focus on Food Safety boxes alert you to food safety issues related to a particular nutrient, population group, or medical condition. Complementary and Alternative Medicine boxes offer uses, contraindications, and advantages/disadvantages of common types of herbs and supplements and potential interactions with prescription or over-the-counter medications. Chapter summaries and review questions reinforce your understanding of key concepts and their application. Key terms are identified in the text and defined on the page to help reinforce critical concepts.

Williams' Basic Nutrition & Diet Therapy 14 Staci Nix, 2013-01-01 Part of the popular LPN Threads Series Williams' Basic Nutrition Diet Therapy is the market leader for a reason: you get coverage of hot topics, emerging trends, and cutting-edge research, plus all the essentials for providing the best nutrition care. Written in a clear conversational style, the book begins with the fundamental concepts of nutrition and then applies those concepts to diverse demographic groups in different stages of life. You also learn how selected disease processes work and how to help communities and individuals achieve health and healthy living. A free CD contains Nutritrac, a computer program that helps you analyze case studies and create customized client profiles. An engaging design includes colorful openers, illustrations, boxes, tables, and text layout. Clinical Applications and For Further Focus boxes highlight hot topics and analyze concepts and trends in depth. Case studies in clinical care chapters focus attention on related patient care problems. Key Concepts and Key Terms condense critical

information into easy to find boxes Diet therapy guidelines include recommendations restrictions and sample diets for a number of major clinical conditions Cultural Considerations boxes discuss how a patient's culture can affect nutritional concepts in practice Challenge questions use true false multiple choice and matching formats to test your understanding of chapter content Critical thinking questions challenge you to analyze apply and combine concepts Chapter summaries put content into perspective in terms of the big picture in nutrition Internet based research and learning is emphasized and expanded throughout the text citing key websites Useful appendixes include information on cholesterol content fiber content cultural and religious dietary patterns and more A companion website contains case studies applying chapter content to real life examples 350 study questions for instant self assessment the most recent growth charts from the CDC the ADA's Nutrition Care Process and links to online information sources Mosby's NUTRITRAC Nutrition Analysis and Weight Management CD offers the perfect clinical practice tool letting you create customized personal profiles and analyze food intake and energy output by using a database of more than 3 000 foods and more than 150 sporting recreational and occupational activities Unique Content threads share features with other LPN LVN titles from Elsevier for a consistent learning experience More than 50 new illustrations include more age and culturally diverse images as well as more illustrations of disease states New assessment tools in the text include the Mini Mental State Examination PAR-Q Physical Activity Readiness Questionnaire body composition measurement tools and tools for energy requirement calculations Drug Nutrient Interaction boxes highlight potential adverse effects of specific medications Updated statistics on diseases and conditions illustrate emerging trends and hot topics such as obesity and supplement use Updated Choose Your Foods Exchange Lists for Diabetes in the appendix includes new content for culturally diverse populations A new figure illustrates the complex processes of digestion and metabolism Water Balance chapter includes the DRIs for fluids and provides the water content of selected foods Nutrition in Infancy Childhood and Adolescence chapter adds information on the growing problem of overweight and obese children Weight Management chapter covers food misinformation and fads addressing the dangers and the groups vulnerable to such misinformation Gastrointestinal and Accessory Organ Problems chapter includes recent research on the pathogenesis of celiac disease along with the principles and selected foods of the gluten free diet for treatment Coronary Heart Disease and Hypertension chapter is updated to follow the now standard Therapeutic Lifestyle Change TLC diet to treat hypertension Surgery and Nutritional Support chapter includes considerations and diets used in treatment for the post bariatric surgery patient

Mallonee, Linda Boyd, Cynthia A. Stegeman, 2024-07-19 Selected for 2025 Doody's Core Titles in Dental Hygiene Auxiliaries Learn how to apply nutritional principles to promote optimal patient care

The Dental Hygienist's Guide to Nutritional Care 6th Edition explains how teaching proper nutrition can improve oral and systemic health. Case studies and clear full color photos and illustrations provide a basis for assessing, diagnosing, planning, implementing, and evaluating the care of patients. In addition, a solid foundation in nutrition prepares you for the subject's increased emphasis on the NBDHE examination. NEW! Incorporation of the latest federal nutrition standards and initiatives includes Healthy People 2030 and the 2020 Dietary Guidelines for Americans. Clinically relevant applications to dental hygiene include a focus on patient education and dental hygiene considerations. Vitamin and mineral content is presented based on the oral effects of micronutrients. Case studies and Health Applications in each chapter demonstrate how nutrition concepts can be applied to specific patient situations. Robust practice opportunities allow you to test your comprehension and apply what you've learned. Key terms are highlighted in each chapter and defined in the glossary.

Nutrition Essentials and Diet Therapy - E-Book Nancy J. Peckenpaugh, 2009-10-01. Nutrition Essentials and Diet Therapy provides complete coverage of all of the content needed in an LPN/LVN curriculum. This versatile text concentrates on what is most important for the health care provider to know about the nutrition basics and the application of nutrition knowledge. Coverage includes the latest developments in nutrition fundamentals, nutrition across the life span, nutritional management of chronic and acute illnesses, the latest DRI's, and expanded coverage of vitamins, minerals, phytochemicals, and herbal remedies. An LPN Threads Series title. Unique Cultural boxes incorporated throughout each chapter focus on specific ways in which culture affects nutritional concepts in practice and promote a greater cultural awareness and prepares students to work with diverse clients. Unique Facts and Fallacies identify common myths about nutrition and then present the facts. This feature promotes nutritional education that is based on research and current belief. Unique Teaching Pearls provide practical nutritional counseling tips and analogies. Critical Thinking Case Studies cover a variety of client teaching considerations related to various nutritional situations. Each case study is followed by application questions. Chapter Challenge Questions and Classroom Activities appear at the end of each chapter and provide the opportunity to review and discuss the content. Additional coverage on women and cardiovascular disease provides insight to the importance of prevention of cardiovascular disease. Expanded herbal therapy coverage includes content on potential interactions between herbal medications and other types of medication. Information on the role that nutrition plays in the prevention of neurodegenerative diseases has been expanded to address the significant growth in the number of individuals being diagnosed with these problems. Expanded content on proteins addresses the increase use of protein powders by athletes and the use of enteral and parenteral supplements during chronic and acute illnesses. NEW! Online Version of Nutritrac Nutrition Analysis Program provides additional tools for learning with an expanded food database of over 5,000 foods in 18 different categories and a complete listing of more than 150 activities. Additional new features for this online version include an ideal body weight (IBW) calculator, a Harris Benedict calculator to estimate total daily energy needs, and the complete Exchange Lists for Meal Planning.
