Valenzuela Ph.D., 2015-01-06 This book is a summary of the experiences and knowledge acquired by the author as a caregiver as a researcher in the field of integral medicine and as a Psycho Oncologist providing therapy and education to clients in the province of Alberta Many books have been written on the psychobiology of health and healing and on the wisdom accumulated by the bodymind since inception The research of Dr Milton Erickson his disciples and many other has already demonstrated that emotions and beliefs are most important components in the equation sickness health Through personal experiences as a prisoner in concentration camps and torture chambers the author demonstrates how much control the individual has over emotions pain and pain management The Journey of Rainsnow J. Rainsnow, 2002-01-30 The JOURNEY OF RAINSNOW centuries in the making yet destined for our own times is an extraordinary book at the same time personal and universal private and planetary THE JOURNEY OF RAINSNOW is the story of one man s mystical odyssey of self discovery as he leaves behind the fetters of his rational past to map out a new territory of life within his heart It is a story which moves from the hard practical streets of New York City to a New Age awakening driven by paranormal experiences powerful synchronicities and a vivid stream of past life memories which give us glimpses of times and places as diverse as ancient Egypt and Greece feudal Japan and imperial China Maya and Aztec Mexico Native North America and Nazi Germany As the adventure unfolds so too do history s most critical lessons and the deepest mysteries of life THE JOURNEY OF RAINSNOW destined to be a New Age classic is truly a must read for anyone immersed in the search for life s meaning for anyone committed to the struggle of our world to heal and survive **Trauma** Muriel Prince, Muriel Warren, 2004 In this post 9 11 world therapists need to expand their toolboxes to deal with trauma and its effects This book provides a new way of dealing with the devastating emotional residue of a traumatic event It centers on the innovative application of hypnotherapy to help trauma victims self actualize regain their lives and move forward again This book outlines the effects of trauma on mind and body and provides comprehensive systems and treatment plans for the mental disorders caused or exacerbated by trauma Many people are familiar with the famous fight or flight responses to trauma but few now about the freeze response Freeze is the most dangerous of the trio since it inhibits any reaction and leaves the victim immobile It can lead directly to

Post traumatic Stress Disorder Also included is a brief survey of brain research and its implications Dr Warren takes readers on a brief journey of self discovery to unlock their full self potential and raise it to a new level **The Formula** Jeffery A. Martin,2011-05 *The Message of the Rainsnow* J. Rainsnow,2002-02-05 THE MESSAGE OF RAINSNOW a book which stands by itself is the inspirational and practical sequel to THE JOURNEY OF RAINSNOW While the first book presented an esoteric chronicle filled with insights for our times THE MESSAGE OF RAINSNOW crystallizes the unfolding consciousness of THE JOURNEY into a pragmatic blueprint for achieving global transformation As many other books it upholds the values of community spirituality and respect for nature seeing in these elements the pillars of our collective salvation Unlike other books however this one seeks not only to promote these invaluable ideals but to build a concrete bridge from where we are now to where we must go to the new world of the future in which these cherished but distant ideals will finally become reality Most importantly of all THE MESSAGE OF RAINSNOW seeks to awaken and to create the living people who will become the embodiment of these indispensable ideals the advanced guard of our world s march to life It is a journey and a privilege which begins by reading this book **Who's Crazy Anyway** Joan Mazza,2000-05 WHO S CRAZY ANYWAY Therapist Joan Mazza lets you decide This extremely useful guide to therapy grew out of Joan Mazza s experience as both a patient in therapy as well as years as a practicing therapist Using what she learned she has written a practical easy to read book designed to help readers make informed wise decisions when seeking the help they need The book is written in user friendly sound bites Each topic covered has a brief explanation and in some cases examples As new concepts and techniques in the mental health field are being developed by pioneering and innovative therapists all the time it is impossible to list all the therapy models and techniques available today Still Joan Mazza covers the main schools of thought and practice as well as many non traditional methods An extensive bibliography recommends other books for study in those areas where readers may wish to seek further more extensive coverage When practiced responsibly ethically and with caution psychotherapy has a lot to offer people in distress This book encourages readers to think critically about their problems and how they can be resolved It suggests the types of help to pursue and urges patients to be good consumers willing to evaluate services received as they proceed Who s Crazy Anyway suggests questions for readers to ask themselves and their therapist Joan Mazza contends that you know what s best for you and this book is a good place to begin **Hypnosis for Change** Josie Hadley,Carol Staudacher,1985 A practical manual of proven hypnotic techniques
