Surprise, Kill, Vanish Annie Jacobsen,2019-05-16 THE USA TODAY BESTSELLER 'As fast paced as a thriller' Fred Burton, Stratfor Talks' Pen and Sword Podcast 'Jacobsen here presents a tour de force exploring the CIA's paramilitary activities...this excellent work feels like uncovering the tip of the iceberg ...Highly recommended for those seeking a better understanding of American foreign policy in action' Jacob Sherman, Library Journal 'A behind-the-scenes look at the most shadowy corners of the American intelligence community...Well-sourced and well-paced, this book is full of surprises' Kirkus 'Annie Jacobsen takes us inside the darkest and most morally ambiguous corner of our government, where politicians ask brave men and women to kill-up close and personal-on America's behalf' Garrett M. Graff, author of Raven Rock: The Story of the U.S. Government's Secret Plan to Save Itself - While the Rest of us Die 'This is a first rate book on the CIA, its paramilitary armies, operators, and assassins' New York Journal of Books 'Having already demonstrated her remarkable aptitude for unearthing government secrets in books like Area 51 (2011) and The Pentagon's Brain (2015), Jacobsen pulls back the curtain on the history of covert warfare and state sanctioned assassinations from WWII to the present...Jacobsen's work revealing a poorly understood but essential slice of warfare history belongs in every library collection' Booklist The definitive, character-driven history of CIA covert operations and U.S. government-sponsored assassinations, from the author of the Pulitzer Prize finalist The Pentagon's Brain Since 1947, domestic and foreign assassinations have been executed under the CIA-led covert action operations team. Before that time, responsibility for taking out America's enemies abroad was even more shrouded in mystery. Despite Hollywood notions of last-minute rogue-operations and external secret hires, covert action is actually a cog in a colossal foreign policy machine, moving through, among others, the Bureau of Intelligence and Research, the House and Senate Select Committees. At the end of the day, it is the President, not the CIA, who is singularly in charge. For the first time, Pulitzer Prize finalist and New York Times bestselling author Annie Jacobsen takes us deep inside this top-secret history. With unparalleled access to former operatives, ambassadors, and even past directors of the Secret Service and CIA operations, Jacobsen reveals the inner workings of these teams, and just how far a U.S. president may go, covertly but lawfully, to pursue the nation's interests.

That the World May Know James Dawes,2009-06-30 What can we do to prevent more atrocities from happening in the future, and to stop the ones that are happening right now? *That the World May Know* tells the powerful and moving story of

the successes and failures of the modern human rights movement. Drawing on firsthand accounts from fieldworkers around the world, the book gives a painfully clear picture of the human cost of confronting inhumanity in our day.

Enough Roger Thurow, 2010 For more than thirty years, humankind has known how to grow enough food to end chronic hunger worldwide. Yet while the "Green Revolution" succeeded in South America and Asia, it never got to Africa. More than 9 million people every year die of hunger, malnutrition, and related diseases every year - most of them in Africa and most of them children. More die of hunger in Africa than from AIDS and malaria combined. Now, an impending global food crisis threatens to make things worse. In the west we think of famine as a natural disaster, brought about by drought; or as the legacy of brutal dictators. But in this powerful investigative narrative, Thurow & Kilman show exactly how, in the past few decades, American, British, and European policies conspired to keep Africa hungry and unable to feed itself. As a new generation of activists work to keep famine from spreading, *Enough* is essential reading on a humanitarian issue of utmost urgency.

Investing in Cultural Diversity and Intercultural Dialogue Unesco, 2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Great Power Competition Mahir J Ibrahimov, Us Army Command and General Staff Colleg, Army University Press, 2020-11-23 The world is changing at an ever-increasing pace. Modern communication with worldwide connectivity has brought together a global community. In this environment, we must be globally astute. We must understand the geopolitical and sociocultural aspects of regional affairs in any region in which we may be called upon to serve. Understanding the operating environment and associated regional cultures of our partners and competitors is essential to making military decisions that directly affect outcomes locally, regionally, and globally. Agile leaders must be able to recognize the cultural and geopolitical realities of operations and be prepared to adjust appropriately to achieve our nation's broader goals. The US Army's culture, regional expertise, and language programs provide a mechanism to prepare our troops to operate in and

among a region's indigenous cultures. This anthology, *Great Power Competition: The Changing Landscape of Global Geopolitics*, written under the auspices of the US Army Command and General Staff College's Cultural and Area Studies Office (CASO), expands on the previous volume, *Cultural Perspectives, Geopolitics, & Energy Security of Eurasia: Is the Next Global Conflict Imminent?* The first book gained significant positive traction among Army leaders as well as among scholars nationally and internationally. *Great Power Competition* expands the focus to include Latin America and Africa. Our authors provide insight and observations on the battle for influence in these important regions. As our Army refocuses to prepare for competition in complex future operating environments, the insights offered in this volume are important for all Army leaders. Future missions may vary, but all will include the need to understand the geopolitical and cultural foundations of regions in which we operate and the people we encounter around the globe. All Army leaders should read this book.

Land Restoration Ilan Chabay, Martin Frick, Jennifer Helgeson, 2015-10-08 *Land Restoration: Reclaiming Landscapes for a Sustainable Future* provides a holistic overview of land degradation and restoration in that it addresses the issue of land restoration from the scientific and practical development points of view. Furthermore, the breadth of chapter topics and contributors cover the topic and a wealth of connected issues, such as security, development, and environmental issues. The use of graphics and extensive references to case studies also make the work accessible and encourage it to be used for reference, but also in active field-work planning. *Land Restoration: Reclaiming Landscapes for a Sustainable Future* brings together practitioners from NGOs, academia, governments, and the United Nations Convention to Combat Desertification (UNCCD) to exchange lessons to enrich the academic understanding of these issues and the solution sets available. - Provides accessible information about the science behind land degradation and restoration for those who do not directly engage with the science allowing full access to the issue at hand. - Includes practical on-the-ground examples garnered from diverse areas, such as the Sahel, Southeast Asia, and the U.S.A. - Provides practical tools for designing and implementing restoration/re-greening processes.

In Pursuit of Justice Richard B. Zabel, James J. Benjamin (Jr.), 2008 In recent years, there has been much controversy about the proper forum in which to prosecute and punish suspected terrorists. Some have endorsed aggressive use of military commissions; others have proposed an entirely new national security court. However, as the nation strives for a vigorous and effective response to terrorism, we should not lose sight of the important tools that are already at our disposal, nor should we forget the costs and risks of seeking to break new ground by departing from established institutions and practices. As this White Paper shows, the existing criminal justice system has proved successful at handling a large number of important and challenging terrorism prosecutions over the past fifteen years without sacrificing national security interests, rigorous standards of fairness and due process, or just punishment for those guilty of terrorism-related crimes.

Creative Conservation P.J. Olney, G. Mace, A. Feistner, 2012-12-06 Past progress and future challenges R.J. Wheeler

Royal Zoological Society of Scotland, Edinburgh, UK. In the past two decades much has been achieved in the sphere of breeding endangered species, and we should be pleased that our co operative efforts have already borne so much fruit. However, on balance and despite the best efforts of conservationists, the position of wildlife in the wild places where they are best conserved has become worse, often dramatically worse. Before returning to the United Kingdom in 1972, I was in Uganda for 16 years, most of which time was spent as Chief Warden of Murchison Falls National Park. Our main problem was that an over-population of large mammals was having a devastating impact on the habitat. Devastation was being wrought on woodland areas by the arrival of large numbers of elephants into the sanctuary of the Park, following changes in land use in the areas outside the Park. These changes were in response to the requirements of an ever-expanding human population.

Annihilating Difference Alexander Laban Hinton,2002-08-15 Genocide is one of the most pressing issues that confronts us today. Its death toll is staggering: over one hundred million dead. Because of their intimate experience in the communities where genocide takes place, anthropologists are uniquely positioned to explain how and why this mass annihilation occurs and the types of devastation genocide causes. This ground breaking book, the first collection of original essays on genocide to be published in anthropology, explores a wide range of cases, including Nazi Germany, Cambodia, Guatemala, Rwanda, and Bosnia.

Vanished Smile R.A. Scotti,2010-04-06 On August 21, 1911, Leonardo da Vinci's most celebrated painting vanished from the Louvre. The prime suspects were as shocking as the crime: Pablo Picasso and Guillaume Apollinaire, young provocateurs of a new art. The sensational disappearing act captured the world's imagination. Crowds stood in line to view the empty space on the museum wall. Thousands more waited, as concerned as if Mona Lisa were a missing person, for news of the lost painting. Almost a century later, questions still linger: Who really pinched Mona Lisa, and why? Part love story, part mystery, *Vanished Smile* reopens the puzzling case that transformed a Renaissance portrait into the most enduring icon of all time.

Chasing a Mirage Tarek Fatah,2008-05-09 In *Chasing a Mirage*, Tarek Fatah Writes: Islamists argue that the period following the passing away of Muhammad was Islam's golden era and that we Muslims need to re-create that caliphate to emulate that political system in today's world. I wish to demonstrate that when Muslims buried the Prophet, they also buried with him many of the universal values of Islam that he had preached. The history of Islam can be described essentially as the history of an unending power struggle, where men have killed each other to claim the mantle of Muhammad. This strife is a painful story that started within hours of the Prophet closing his eyes forever, and needs to be told. I firmly believe the message of the Quran is strong enough to withstand the facts of history. It is my conviction that Muslims are mature and

secure in their identities to face the truth. This is that story. Advance Praise for Chasing a Mirage Tarek Fatah has written a provocative and challenging book which is a must read for anyone who cares about these issues. —Janice Gross Stein Chasing a Mirage is an extremely valuable contributing to the fight by progressive Muslims against Islamist fascism. This book should be required reading for the Left in the West who have mistakenly started believing that Islamists represent some sort of anti-imperialism. —Farooq Tariq Fatah argues passionately for universalism instead of exclusivism, integration instead of ghettoism, and makes a powerful appeal for the silent majority of Muslims to speak out before it is too late. This work of courage and daring needs to be read widely. — Pervez Hoodbhoy This fascinating work by brave and brilliant Tarek Fatah is simultaneously thought-provoking, instructive and enlightening for laymen and scholars, Muslims and non-Muslim...an invaluable and rare addition to the corpus of Islamic literature in the post-9/11 world, a bold step towards Islamic Reformation and Enlightenment. —Taj Hashmi Tarek Fatah's is a voice that needs to be heard. Canada needs a healthy, reasoned debate about the issues he is raising, and indeed so does the world. —Bob Rae This fascinating work by brave and brilliant Tarek Fatah is simultaneously thought-provoking, instructive and enlightening for laymen and scholars, Muslim and non-Muslim... an invaluable and rare addition to the corpus of Islamic literature in the post-9/11 world, a bold step towards Islamic Reformation and Enlightenment. —Taj Hashmi Tarek Fatah's is a voice that needs to be heard. The Other Alcott Elise Hooper, 2017-09-05 A People Magazine and POPSUGAR pick! “[May's] adventures illuminate the world of intrepid female artists in the late 1800s [...] The Other Alcott comes alive in its development of the relationship between Louisa and May.” --The New York Times Elise Hooper's debut novel conjures the fascinating, untold story of May Alcott—Louisa's youngest sister and an artist in her own right. We all know the story of the March sisters, heroines of Louisa May Alcott's *Little Women*. But while everyone cheers on Jo March, based on Louisa herself, Amy March is often the least favorite sister. Now, it's time to learn the truth about the real “Amy”, Louisa's sister, May. Stylish, outgoing, creative, May Alcott grows up longing to experience the wide world beyond Concord, Massachusetts. While her sister Louisa crafts stories, May herself is a talented and dedicated artist, taking lessons in Boston, turning down a marriage proposal from a well-off suitor, and facing scorn for entering what is very much a man's profession. Life for the Alcott family has never been easy, so when Louisa's *Little Women* is published, its success eases the financial burdens they'd faced for so many years. Everyone agrees the novel is charming, but May is struck to the core by the portrayal of selfish, spoiled “Amy March.” Is this what her beloved sister really thinks of her? So May embarks on a quest to discover her own true identity, as an artist and a woman. From Boston to Rome, London, and Paris, this brave, talented, and determined woman forges an amazing life of her own, making her so much more than merely “The Other Alcott.” “Elise Hooper's thoroughly modern debut gives a fresh take on

one of literature's most beloved families. To read this book is to understand why the women behind *Little Women* continue to cast a long shadow on our imaginations and dreams. Hooper is a writer to watch!"—Elisabeth Egan, author of *A Window Opens*

Flirting with French William Alexander, 2015-04-09 William Alexander is not just a Francophile, he wants to be French. It's not enough to explore the country, to enjoy the food and revel in the ambiance, he wants to feel French from the inside. Among the things that stand in his way is the fact that he can't actually speak the language. Setting out to conquer the language he loves (but which, amusingly, does not seem to love him back), Alexander devotes himself to learning French, going beyond grammar lessons and memory techniques to delve into the history of the language, the science of linguistics, and the art of translation. Along the way, during his travels in France or following his passion at home, he discovers that not learning a language may be its own reward.

Contemporary Management Dianne Waddell, 2013 This unique text follows a nonprescriptive, real-world approach to management and is written in an accessible style allowing for flexibility in both teaching and learning. Used at both an undergraduate and postgraduate level, *Contemporary Management* has a concise structure designed to meet the needs of trimesters and 12 week teaching schedules. The uncluttered internal design alongside the modern treatment of the topic makes this text significantly different to other texts in the market. It offers updated content to reflect the impact of the GFC and the increasing significance of diversity, culture and ethics. There are all new in-chapter case studies, new Australian videos and a full range of excellent online resources. Also, this edition includes a new end of book section containing two unique integrated case studies exploring tourism management in Australian tourism destinations: Skyrail in Cairns and Flinders Island, Tasmania.
