This Is My Squad Army Board Questions:

Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army, 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively within superior leaders' intent and purpose and in the organization's best interests. Army leaders recognize that organizations built on mutual trust and confidence accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates; they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority. **From One Leader to Another**

Combat Studies Institute Press, 2013-05. This work is a collection of observations, insights, and advice from over 50 serving and retired Senior Non-Commissioned Officers. These experienced Army leaders have provided for the reader outstanding mentorship on leadership skills, tasks, and responsibilities relevant to our Army today. There is much wisdom and advice from one leader to another in the following pages. **U. S. Army Board Study Guide**, 2006-06 **TRADOC Pamphlet TP**

600-4 The Soldier's Blue Book United States Government Us Army, 2019-12-14. This manual, TRADOC Pamphlet TP 600-4, *The Soldier's Blue Book: The Guide for Initial Entry Soldiers*, August 2019, is the guide for all Initial Entry Training (IET) Soldiers who join our Army Profession. It provides an introduction to being a Soldier and a Trusted Army Professional, certified in character, competence, and commitment to the Army. The pamphlet introduces Soldiers to the Army Ethic, Values, Culture of Trust, History, Organizations, and Training. It provides information on pay, leave, Thrift Savings Plans (TSPs), and organizations that will be available to assist you and your families. The Soldier's Blue Book is mandated reading and will be maintained and available during Basic Combat Training (BCT), Officer School (OSUT), and Advanced Individual Training (AIT). This pamphlet applies to all active Army, U.S. Army Reserve, and the Army National Guard enlisted IET conducted at service schools, Army Training Centers, and other training activities under the control of

Headquarters TRADOC. *The Sergeants Major of the Army*, 2010. **The Evolution of US Army Tactical Doctrine, 1946-76** Robert A. Doughty, 1979. This paper focuses on the formulation of doctrine since World War II. In no comparable period in history have the dimensions of the battlefield been so altered by rapid technological changes. The need for the tactical doctrines of the Army to remain correspondingly abreast of these changes is thus more pressing than ever before. Future conflicts are not likely to develop in the leisurely fashions of the past where tactical doctrines could be refined on the battlefield itself. It is therefore imperative that we apprehend future problems with as much accuracy as possible. One means of doing so is to pay particular attention to the business of how the Army's doctrine has developed historically with a view to improving methods of future development. **Report of the Fort Hood Independent Review Committee** United States.

Fort Hood Independent Review Committee, United States. Department of the Army, 2020-12-22 The U S Secretary of the Army appointed the Fort Hood Independent Review Committee FHIRC or Committee and directed it to conduct a comprehensive assessment of the Fort Hood command climate and culture and its impact if any on the safety welfare and readiness of our Soldiers and units In addressing this mandate the FHIRC determined that during the time period covered by the Review the command climate relative to the Sexual Harassment Assault Response and Prevention SHARP Program at Fort Hood was ineffective to the extent that there was a permissive environment for sexual assault and sexual harassment As set forth in this Report specific Findings demonstrate that the implementation of the SHARP Program was ineffective During the review period no Commanding General or subordinate echelon commander chose to intervene proactively and mitigate known risks of high crime sexual assault and sexual harassment The result was a pervasive lack of confidence in the SHARP Program and an unacceptable lack of knowledge of core SHARP components regarding reporting and certain victim services Under a structurally weak and under resourced III Corps SHARP Program the Sexual Assault Review Board SARB process was primarily utilized to address administrative and not the actual substantive aspects of the Program While a powerful tool by design the SARB process became a missed opportunity to develop and implement proactive strategies to create a respectful culture and prevent and reduce incidents of sexual assault and sexual harassment From the III Corps level and below the SHARP Program was chronically under resourced due to understaffing lack of training lack of credentialed SHARP professionals and lack of funding Most of all it lacked command emphasis where it was needed the most the enlisted ranks A resonant symptom of the SHARP Program's ineffective implementation was significant underreporting of sexual harassment and sexual assault Without intervention from the NCOs and officers entrusted with their health and safety victims feared the inevitable consequences of reporting ostracism shunning and shaming harsh treatment and indelible damage to their career Many have left the Army or plan to do so at the earliest opportunity As part of the command climate the issues of crime and Criminal Investigation Division CID operations were examined The Committee determined that serious crime issues on and off Fort Hood were neither identified nor addressed There was a conspicuous absence of an effective risk management approach to crime incident reduction and Soldier victimization A military installation is essentially a large gated community The Commander of a military installation possesses a wide variety of options to proactively address and mitigate the spectrum of crime incidents Despite having the capability very few tools were employed at Fort Hood to do so Both the Directorate of Emergency Services DES and the CID have a mandate and a role to play in crime reduction Each contributed very little analysis feedback and general situational awareness to the command toward facilitating and enabling such actions This was another missed opportunity The deficient climate also extended into the missing Soldier scenarios where no one recognized the slippage in accountability procedures and unwillingness or lack of ability of noncommissioned officers NCOs to keep track of their subordinates The absence of any formal protocols for Soldiers who fail to report resulted in an ad hoc approach

by units and Military Police MP to effectively address instances of missing Soldiers during the critical first 24 hours again with adverse consequences Consistent with the FHIRC Charter this Report sets forth nine Findings and offers seventy Recommendations **The Defence of Duffer's Drift** Ernest Dunlop Swinton, 1916 **The Engineer** , 2014
